#### *About the Institute*

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

WONDERFUL NEW X-RAY.

THE WONDER OF THE TWENTIETH CENTURY.

SEE THE BONES IN YOUR FINGERS! SEE THROUGH A DOLLAR! WONDERFUL!

The Football Club has engaged Prof. F. W. Popenoe, the renowned X-RAYIST, for THREE DAYS ONLY, to exhibit ~~###~~ his Wonderful X-RAY MACHINE at the rooms of the FOOTBALL CLUB. Absolutely his only appearance in Topeka. He will come here on Wednesday, Nov. 16, 1904, and will be here the rest of the week. For the first day the machine will be free, just to let people see what it is, but the remainder of the week the price will be 3 tickets for one cent. We hope everybody will take advantage of this great chance to witness this great machine and see what a marvelous thing it is.

BY ORDER OF THE FOOTBALL CLUB,

*F. W. Popenoe.*

PRESIDENT.
