The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Archives.

Usage guidelines

We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

Teejan Plot
elevation 7700

Fertilized with 20-20
at planting

Good stand
Denticoso # 2

~~One plot not fertilized~~
all fertilized at
planting in error

Julio Alejandro Mora
Chicacao, Such.

San Sebastian - house
4800 (my aneroid)

Calderas 6800 ft

Lassen doing beautifully
Does it make miners

Bruce doing well

Early Mcintosh delayed

Jonathan delayed

Skyline Supreme
delayed

Martha not delayed
looks good

USDA 1225 Fair

Sechel not growing

Base very promising
5 ft high

Concepcion - El Rosario
6900 ft

Whitney - just like mine

Chestnut - fine -
6 ft normal growth
and good foliage

Anoka fine 6 ft
high and bearing

at San Sebastian
young America
3 ft fine

Lady 3 ft fine

Rescue 2 ft fine

Transcendent
3 1/2 ft strong

Hyslop 5 ft strong

Martha 2 1/2 ft
very strong

Whitney 3 ft
strong

UATA 1225
20 inches good

Dolge 3 ft good

Wealthy delayed
5 ft

Methley good

A little picture
under the
podno in the
very bottom
is probably
from Podno.

1967 Placas

46-930

Arturo's house 74

Was on Thu 1.30 - 2.00

The yellow corn

is Gruchy

(John J. Gruchy)

Milton Lau saw
good apple trees
in Dpto Huehuetenango
at Soloma, Sta
Eulalia

Good vineyard grapes
at Chiantla owned
by a Rumanian.
Inquire at SFEI
school.
