The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Library.

Usage guidelines

To the best of our knowledge, this item is in the public domain. We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

VOL. XXXIII.

Number 291,

(PRICE 3s. 6d.)

To be continued MONTHLY, of

CURTIS'S

LAMBERT'S GENUS PINUS,
Vol. II.

Being a description of the Genus Pinus, illustrated with Figures, directions relative to the cultivation, and remarks on the uses of the several species. By **AYLMER BOURKE LAMBERT, Esq. F.R.S.; F.S.A.;** Vice President of the Linnean Society, and Member of the Royal Academy of Sciences at Madrid, &c. &c.

Printed for **JOHN GALE, Bruton Street, Bond Street;**
and **ROBERT JENNINGS, in the Poultry.**

This Work consists of Plates and description of Species of the Genus intirely new, and the most magnificent hitherto discovered; which, as they will bear the climate of this country, they cannot fail to be an important acquisition to the Parks and Plantations, both in usefulness and ornament. Besides the Genus Pinus, it includes likewise descriptions of many other new Species of the Family of Conifera.

A Plate is given, with a History of the interesting tree which produces the tea of Paraguay; and in an Appendix, a full account of the Lambertian Herbarium, by Mr. **DOX.**

* * * The First Volume having become exceedingly scarce, it is in contemplation to reprint it. Noblemen and Gentlemen desirous of possessing copies are requested to send their names to the Publishers, or to their respective Booksellers, as the delivery will be regulated according to the order of Subscription. Twelve Sets will be coloured in the most finished Style of the Art, by *Sowerby*, after the original Drawings.
