About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

MILLARD'S

IMPERIAL

Cotton Twine Cloth Shirtings and
Sheetings,

(For regulating the Perspiration, and Prevention of taking Cold.)

THIS valuable Article is fold, stamped as above, Wholesale and by the Piece, or Demy Piece, at the EAST-INDIA WAREHOUSES, No. 16, CHEAPSIDE, and at no other House. It is warranted free from Mixture; and is most desirable for Persons travelling or going Abroad (as it does not imbibe the damp Atmosphere) as well as for the Inhabitants of this changeable Climate; it is nearly half the Price of Irish and other Linens. It is of great Delicacy of Texture and Durability. It is one of the greatest Preventives of the taking Cold ever discovered. Each Piece contains about Twenty-Six Yards, the Price Two Shillings, Two Shillings and Sixpence, Three Shillings, and Three Shillings and Sixpence per Yard. The Quality of Two Shillings and Sixpence for Ladies, and that of Three Shillings for Gentlemen's Wear, is equal in Fineness to Linens of Four Shillings and Sixpence and Five Shillings and Sixpence;—that of Three Shillings and Sixpence is superfine, and equal to Linens of Six Shillings and Sixpence per Yard.

The Sheetings are both made in Ell-Wide and Six-Quarters, from Two Shillings to Three Shillings and Sixpence per Yard.

The delicate Article of White Chintz, for Dresses, &c. may be obtained as above only, in Pieces, containing Three Dresses, at Two Guineas, and Two Guineas and a Half each; and those of Four Dresses, at Three Guineas each.

PROSPECTUS

OF A

WORK

TO BE ENTITLED

Illustrationes Floræ Novæ Hollandiæ,

By FERDINAND BAUER.

IN this Work will be given a Figure of at least one Species in every Genus of Plants described by Mr. BROWN, in his *Flora Novæ Hollandiæ et Insulæ Van Diemen.*

The Parts of Frustrification will be figured separately, in their various States, and generally magnified: to these proper Marks will be annexed, an Explanation of which will be given in a general Table, to be published with the first Number of the Work.

No Letter-Prefs will accompany the Figures; but a particular Reference to Mr. BROWN'S *Prodromus Floræ Novæ Hollandiæ* will be given at the Bottom of each Plate along with the Name of the Plant.

Where the Genera either consist of very many Species, or are divided into natural Sections in the Work referred to, such additional figures will be given as are considered necessary for their complete Illustration.

The Work will be published in Folio Numbers, containing Five Plates: the first Number will appear August 1, 1813; and the Author hopes to be able to continue their Publication Quarterly.

Price of each Number, uncoloured, Five Shillings; coloured, One Pound Eleven Shillings and Sixpence.

§ To be had of the Author, No. 10, Great Russel-Street Bloombury.
