*About the Institute*

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

BY HIS MAJESTY'S ROYAL LETTERS PATENT.

*Ne contenant pas de Lin, mais en possédant tous les Agrémens, et qui  
rend inutile l'Usage de la Flanelle.*

**T**HE Nobility, Merchants, and the Public, are respectfully informed, the above Cloth is manufactured solely by the Steam Apparatus, on a mathematical Principle, and is adapted for the various Purposes of Family-Use, for Shirting, for Sheeting, Childrens' Wear, Slips, &c. &c. Used for the Purpose of Linen, it surpasses every other Cloth in its primary Quality; CONDUCTIVENESS TO HEALTH, which it promotes in all Climates, by protecting WITHOUT INCREASING the native Warmth in each, and in every Season, and totally preventing the various Ills that arise from being suddenly chilled after riding or other active Exercise. To Officers in the Army and Navy it is of the first Moment, as it never imbibes the damp Atmosphere either by Sea or Land; its Economy and Durability is very great, and its Beauty in Appearance peculiar. As Sheeting, it equally surpasses every other Cloth for Comfort and Appearance, as well as being Two-Fifths or nearly Half the Price, producing in each fine Pair a Saving of Two Pounds Eight Shillings, in Addition to its peculiar agreeable Wear.

It is Sold by the Patentee, duly stamped, Wholesale, in Cases of Thirty and Sixty Pieces each, for Exportation; and by the Piece of Twenty-Five to Fifty-Two Yards, from Two Shillings to Five Shillings and Sixpence per Yard, at the EAST-INDIA WAREHOUSES, No. 16, CHEAPSIDE, and at no other House in Town or Country. Orders with Remittance, executed as if the Parties were present. The White Chints for Ladies Dresses may be obtained as above, from Two to Four Guineas each Piece, containing from Three to Four Dresses.

By JOHN SIMS, M.D. F.R.S. & L.S.

---

The entire Work, or any of the Volumes, Price One Guinea each, may be had of SHERWOOD, NEELY, and JONES, and all Bookfellers in Town and Country; or any Numbers may be had separate, to complete Sets.

The BOTANICAL MAGAZINE will continue to be published on the First Day of every Month, in Numbers, containing Eight Plates, Price Three Shillings and Sixpence; and no Pains or Expence will be spared to keep up the Credit of a Work, which has hitherto met with almost unexampled Encouragement.

Complete Indexes to the Whole are in Preparation, and will be published with the Forty-Second Volume.

---

\*\*\* Noblemen, Gentlemen, and Cultivators in General, having new or rare Plants, not hitherto published in the Magazine, and being desirous of having the same recorded in this extensive and therefore important Collection, may, as far as can be, have their Wishes complied with, by sending the Plants, or good flowering Specimens, in a proper State for Representation, to Dr. SIMS, No. 67, Upper Guildford-Street, Russel-Square. Such Plants, whether tender or hardy, will be taken Care of, and returned to Order, as soon as drawn and described. And when the Plants or Specimens cannot be conveniently removed, Notice of the same is requested to be sent to Dr. SIMS, by Post.
