The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Library.

Usage guidelines

To the best of our knowledge, this item is in the public domain. We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

A. Wilson

Number 346,
(PRICE 3s. 6d.)
TO BE CONTINUED MONTHLY, OF
CURTIS'S
Botanical Magazine;
OR,
FLOWER-GARDEN DISPLAYED :

Continued by **JOHN SIMS, M. D.**

FELLOW OF THE ROYAL AND LINNEAN SOCIETIES.

London:

Printed by STEPHEN COUCHMAN, Throgmorton-Street,
For the PROPRIETORS, and Sold by SHERWOOD, NEELY, and
JONES, No. 20, Paternoster-Row.

Also, by all Booksellers, Stationers, and News-Carriers,
in Town and Country.

Millard's Imperial Cloth,

BY HIS MAJESTY'S ROYAL LETTERS PATENT.

THE Nobility, Merchants, and the Public, are respectfully informed by the Patentee, this Cloth is sold, duly stamped, at the EAST-INDIA WAREHOUSES, No. 16, *Cheapside*; and at no other House, Wholesale, in entire Cases for Exportation, and by the Piece, from Twenty-Five to Fifty-Two Yards each, at 2s. 2s. 6d. 3s. 3s. 6d. 4s. 4s. 6d. and 5s. 6d. $\frac{7}{8}$ Yard. It is manufactured on a mathematical Principle, of great Durability and peculiar for its Economy, and its singular Conduciveness to Health, entirely preventing the ill Effects arising from sudden Transitions from Heat to Cold after Exercise, never imbibing the damp Atmosphere on the longest Sea-Voyages, and equally beneficial in hot or cold Climates, and adapted to all the Purposes of Family Use, for Shirting, Children's Wear, Sheeting, &c.—The Pieces for Sheeting, both 5-4ths and 6-4ths, contain from Two to Four Pair each, and surpass every other Kind for Economy and Comfort.

* * *Orders punctually executed.*

The Numbers will appear in rapid succession.

London:—Printed by Hatfield and Twigg, Great New Street.—Published
by C. TAYLOR, 108, Hatton Garden;—and SHERWOOD, NEELY,
and JONES, Paternoster Row.

THE unprecedented opportunities and advantages possessed and industriously improved by Baron Denon during the occupation of Egypt by the French, have conferred on his designs and descriptions an unparalleled but well merited celebrity. As an artist, and a traveller, his fame is unrivalled on the Continent, and this work has fully established his superiority. The brilliancy of his style, the animation of his descriptions, the justness of his observations, the fidelity of his de-

tails, supported and completed by the exquisite productions of his pencil, unite to confer an unprecedented interest on his work :—while the important trusts confided to his skill and talents, the honourable distinctions which have been conferred on him, and the elevated rank to which he has arisen, evince that high estimation in which he is held, both as a member of society, and as an artist ; an estimation owing in no inferior degree to the approbation universally bestowed on his Description of Egypt.

The accounts which former travellers had given relative to Egypt, have been received with extensive interest, although circumstances limited within narrow bounds their means of acquiring information, relative to the country, its peculiarities, its customs, and its inhabitants. Their details excited curiosity, rather than satisfied it. Visited by the most illustrious sages of antiquity, the source whence Greece derived laws, arts, and sciences, yet the exterior only of its edifices was visible, and the darkness of mystery always enveloped its shrines of superstition. Successively the subject of revolutions, political or religious, its monuments remained almost unknown ; and excepting a few sketches taken by stealth, and under every disadvantage, they continued the subject of mere description. An event so extraordinary as the invasion of this country by a powerful army, accompanied by a subsidiary troop of artists, and learned men, now enables the public to possess faithful representations and correct descriptions of those objects of ancient art which equally interest the Architect and the Scholar, the Artist and the Patron.

Dr. E. D. Clarke, whose Travels are now in a course of publication, having passed through the same districts as Baron Denon, refers perpetually to the plates contained in this work as illustrative of his volumes. This series of Engravings, therefore, will form a valuable and important supplement to the works of that learned Traveller.

This Day is Published,

VOL. XLII.

OF THE

Botanical Magazine,

PRICE ONE GUINEA.

THIS Work contains Figures accurately drawn and coloured from Nature, of upwards of 1770 Plants, cultivated in Gardens, chiefly in the Environs of London; and each Figure is accompanied with a Page or more of Letter-Prefs, containing fuch Information as was thought to be moft defirable, to all fuch Perfons as wifh to become fcientifically acquainted with the Plants they cultivate.

Continued fince the Death of Mr. CURTIS,
By JOHN SIMS, M.D. F.R.S. & L.S.

The entire Work, or any of the Volumes, Price One Guinea each, may be had of SHERWOOD, NEELY, and JONES, and all Bookfellers in Town and Country; or any Numbers may be had feparate, to complete Sets.

The BOTANICAL MAGAZINE will continue to be published on the Firft Day of every Month, in Numbers, containing Eight Plates, Price Three Shillings and Sixpence; and no Pains or Expence will be fpared to keep up the Credit of a Work, which has hitherto met with almoft unexampled Encouragement.

Complete Indexes to the Forty-Two Volumes are in Preparation, and will be fpeedily publifhed.

* * * Noblemen, Gentlemen, and Cultivators in General, having new or rare Plants, not hitherto publifhed in the Magazine, and being defirous of having the fame recorded in this extenfive and therefore important Collection, may, as far as can be, have their Wifhes complied with, by fending the Plants, or good flowering Specimens, in a proper State for Representation, to Dr. SIMS, No. 67, Upper Guildford-Street, Ruffel-Square. Such Plants, whether tender or hardy, will be taken Care of, and returned to Order, as foon as drawn and defcribed. And when the Plants or Specimens cannot be conveniently removed, Notice of the fame is requested to be fent to Dr. SIMS, by Poft.
