The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Library.

Usage guidelines

To the best of our knowledge, this item is in the public domain. We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

(PRICE 3s. 6d.)

TO BE CONTINUED MONTHLY, OF

CURTIS'S
Botanical Magazine;

OR,

FLOWER-GARDEN DISPLAYED :

IN WHICH

The most Ornamental FOREIGN PLANTS, cultivated in the Open Ground, the Green-House, and the Stove; are accurately represented in their natural Colours.

TO WHICH ARE ADDED,

Their Names, Class, Order, Generic and Specific Characters, according to the celebrated LINNÆUS; their Places of Growth, and Times of Flowering;

Together with the most approved Methods of CULTURE.

A WORK

Intended for the Use of such LADIES, GENTLEMEN, and GARDENERS, as wish to become scientifically acquainted with the Plants they cultivate.

Continued by **JOHN SIMS, M. D.**

FELLOW OF THE ROYAL AND LINNEAN SOCIETIES.

London:

Printed by **STEPHEN COUCHMAN**, Throgmorton-Street,
For the PROPRIETORS, and Sold by **SHERWOOD, NEELY, and**
JONES, No. 20, *Paternoster-Row*.

Also, by all Booksellers, Stationers, and News-Carriers,
in Town and Country.

On the 1st of June 1816, was Published,

PART I. of

The Pomona Britannica,

BEING A COLLECTION OF SPECIMENS OF

THE MOST ESTEEMED FRUITS

At present cultivated in this Country :

By **GEORGE BROOKSHAW, Esq.**

THE Object of the POMONA BRITANNICA is, by a Series of correct Delineations, to afford Gentlemen an Opportunity of becoming acquainted with the most choice and valuable Varieties of Fruit, which will enable them to plant Gardens and Orchards in the most advantageous Manner; it will also introduce to their Notice several Sorts of superior Value, which are at present but little known; it will also contain a Table of the comparative Value of Fruits, enabling them at one View to select the most desirable Sorts requisite to stock a Garden, in Proportion to its Size and to the Extent of Walling it may contain.

Each Plate will be accompanied with a Letter-Press Description of the peculiar Character and Habits of each Fruit. Particular Care will be taken in pointing out the Sorts proper for Forcing or open Walls. The Leaves and Blossoms, when they assist in marking the Varieties, will be given; and nothing will be omitted which can in any Manner tend to make the Work complete.

With respect to the Execution of the Work, it is simply necessary to say, that the Plates are engraved and coloured from original Paintings in the Possession of the Proprietors, made by Mr. BROOKSHAW, from Specimens in the most celebrated Gardens in the Vicinity of London. The Paintings are the Result of Ten Years Labour, and afford by their superior Execution and Accuracy ample Security that the POMONA BRITANNICA will give the true Character and Representation of the Fruits.—The Colouring will be done under the immediate Inspection of Mr. BROOKSHAW.

** The Work will be handsomely printed in Quarto, on fine Elephant Paper, and will be delivered in Twelve Parts, Price One Guinea each, to Subscribers; each Part will contain Five Plates and their Descriptions.—It will extend to Sixty Plates, comprizing One Hundred and Seventy-Four Specimens of Fruits, and forming Two handsome Volumes. The Plates are all engraved, and the Descriptions will shortly be completed; so that no Delay will occur in the Publication. The succeeding Parts will regularly appear on the 1st of each Month.

Printed for and Published by LONGMAN, HURST, REES, ORME, & BROWN,
Paternoster-Row; and JOHN LEFARD, 108, Strand.

May 1, 1816.

Botanical Descriptions, illustrative of the Twenty-Four Classes
and Orders of LINNÆUS; with a clear Elucidation of his
System.

BY HIS MAJESTY'S ROYAL LETTERS PATENT,

MILLARD'S

Imperial Twine Shirting Cloth.

THE Nobility, Merchants, and the Public, are respectfully informed, by the Patentee, the above Cloth is sold genuine, duly stamped, at the EAST-INDIA WAREHOUSES, No. 16, *Cheapside*, and at no OTHER HOUSE WHATEVER, Wholesale, in entire Cases for Exportation; and by the Piece, from Twenty-Five to Fifty-Two Yards each, at 2s.—2s. 6d.—3s.—3s. 6d.—4s.—4s. 6d. and 5s. 6d. per Yard; its peculiar Economy, and singular Conduciveness to the Health of the Wearer, preventing the ill Effects arising from sudden Transitions from Heat to Cold after Exercise, and never imbibing the damp Atmosphere in any Climate, renders it an Article most desirable, and of the first Consideration to every Individual. To Gentlemen in the Army and Navy, and those Travelling, or who use much Exercise in Hunting, Shooting, &c. this Property is invaluable, as it naturally protects and invigorates Health, by protecting and regulating its principal Source, the Perspiration. It is adapted to every Purpose of Family Use, for Shirting, for Children's Wear, and for Sheeting, the Pieces for which, both 5-4th and 6-4th, contain from Two to Four Pair each, and surpass every other Kind for Economy, Beauty, and Pleasantness of Wear. Orders from the Country receive every Attention. The White Chints, for Ladies' Dresses, &c. may be obtained as above, in Pieces, from Two to Four Guineas each, containing from Three to Four Dresses.

* * * The Public are requested particularly to notice, that the above can be obtained *Genuine and Duly Stamped*, nowhere but of the Patentee at the East-India Warehouse, No. 16, *Cheapside*, where Orders from the Country enclosing Remittance, are executed as if the Parties were present, and sent *free of Expense*; and it is the more necessary to observe, as it has been discovered that many spurious Kinds have been imposed upon the Public, both in London and in the Country, to the great Disappointment of the Purchasers.

Numerous Families in the first Circles have long enjoyed its Utility
