The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Library.

Usage guidelines

To the best of our knowledge, this item is in the public domain. We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

W. Wilson

Number 355,
(PRICE 3s. 6d.)

VOL. XLII.

OF THE

Botanical Magazine,

PRICE ONE GUINEA.

THIS Work contains Figures accurately drawn and coloured from Nature, of upwards of 1770 Plants, cultivated in Gardens, chiefly in the Environs of London; and each Figure is accompanied with a Page or more of Letter-Prefs, containing such Information as was thought to be most desirable, to all such Persons as wish to become scientifically acquainted with the Plants they cultivate.

Continued since the Death of Mr. CURTIS,
By JOHN SIMS, M.D. F.R.S. & L.S.

The entire Work, or any of the Volumes, Price One Guinea each, may be had of **SHERWOOD, NEELY, and JONES**, and all Bookfellers in Town and Country; or any Numbers may be had separate, to complete Sets.

The **BOTANICAL MAGAZINE** will continue to be published on the First Day of every Month, in Numbers, containing Eight Plates, Price Three Shillings and Sixpence; and no Pains or Expence will be spared to keep up the Credit of a Work, which has hitherto met with almost unexampled Encouragement.

Complete Indexes to the Forty-Two Volumes are in the Prefs, and will be speedily published.

* * * Noblemen, Gentlemen, and Cultivators in General, having new or rare Plants, not hitherto published in the Magazine, and being desirous of having the same recorded in this extensive and therefore important Collection, may, as far as can be, have their Wishes complied with, by sending the Plants, or good flowering Specimens, in a proper State for Representation, to **Dr. SIMS**, No. 67, Upper Guildford-Street, Russel-Square. Such Plants, whether tender or hardy, will be taken Care of, and returned to Order, as soon as drawn and described. And when the Plants or Specimens cannot be conveniently removed, Notice of the same is requested to be sent to **Dr. SIMS**, by Post.
