The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Library.

Usage guidelines

To the best of our knowledge, this item is in the public domain. We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

April 1, 1828.

No. XVI.—*New Series.*

Price 3s. 6d. Coloured and 3s. Plain,

(To be continued Monthly)

**CURTIS'S
BOTANICAL MAGAZINE;**

OR

Flower Garden Displayed:

In which the most Ornamental FOREIGN PLANTS cultivated in the Open Ground,
the Green House, and the Stove, are accurately represented and coloured.

To which are added,

THEIR NAMES, CLASS, ORDER, GENERIC AND SPECIFIC CHARACTERS,
ACCORDING TO THE SYSTEM OF LINNÆUS;

*Their Places of Growth, Times of Flowering, and most approved
Methods of Culture.*

Florist, at Haarlem:

And to be had of all Booksellers in Town and Country.

This day is published, in One Small Volume, price Ten Shillings,

By Messrs. HOOKHAM, Old Bond Street, London,

The Circle of the Seasons,

AND

Floral Companion to the Calendar and Almanac.

This Work contains an accurate Catalogue of the average days of the year, on which above a Thousand Species of our common garden Flowers rise, flower, and decay; being a complete *Floral Calendar*, founded on Journals kept of the Flowering of Plants for above Sixty Years back, and intended as the Pocket Companion of the "AMATEUR FLORIST AND BOTANIST."

The Botanical part of this Work is supplied by Dr. FOSTER, F. L. S. &c. of Boreham, in Essex.

The Work also contains the times of the Arrival of Birds, and other subjects of Natural History, and is interspersed with a Selection of appropriate Poetry relating to Plants, and to subjects in the Calendar. Some notices of Popular Astronomy are also introduced, to render the Work complete as an Almanac of the Natural History and Philosophy of the Year.

N. B. From the unprecedented rapidity in the sale of this Work, those who desire to purchase it are requested to apply early.

Of MESSRS. HOOKHAM of *Bond Street*, are now to be had the whole of the Works of Dr. FOSTER, either separately or complete.

On the First of May next will be published, in Octavo,
BY LONGMAN, REES, ORME, BROWN, & GREEN, LONDON,
No. I. to be continued monthly, Price 2s. 6d. of the

Magazine of Natural History,

AND
JOURNAL OF ZOOLOGY, BOTANY, & MINERALOGY.
Conducted by J. C. LOUDON, F. L. S. H. S., &c.

The different departments edited by gentlemen eminent in each: the Drawings of Botany and
Concology by **SOEWERY**, of Animals by **HARVEY**, and of Trees by **STRUTT**,
and the Engravings by **BRANSTON**.

The work will be arranged under Six Divisions, as in the following table:—

- I. ZOOLOGY.—1. ORIGINAL COMMUNICATIONS. 2. REVIEWS. 3. COLLECTANEA, *i. e.* short Notices collected from various sources; Abstracts or Abridgments of the most interesting Papers in Foreign Journals, &c. &c.
- II. BOTANY.—1. ORIGINAL COMMUNICATIONS. 2. REVIEWS. 3. COLLECTANEA.
- III. MINERALOGY.—1. ORIGINAL COMMUNICATIONS. 2. REVIEWS. 3. COLLECTANEA.
- IV. GEOLOGY.—1. ORIGINAL COMMUNICATIONS. 2. REVIEWS. 3. COLLECTANEA.
- V. METEOROLOGY.—1. ORIGINAL COMMUNICATIONS. 2. REVIEWS. 3. COLLECTANEA.
- VI. THE GENERAL SUBJECT.—1. ORIGINAL PAPERS OF A MISCELLANEOUS DESCRIPTION, or embracing two or more Departments, or a topic common to the whole of Natural History.
2. ANALYTICAL REVIEWS OF BOOKS ON NATURAL HISTORY in general, such as Elementary Works, Systems, Transactions of Societies, Travels, chiefly devoted to Natural History, and, in short, all such Works as are connected with the general subject, but which are not limited to any one of the foregoing Five Divisions.
3. MISCELLANEOUS DOMESTIC INTELLIGENCE relative to the general subject, including Meetings of Natural History Societies, &c. metropolitan and provincial. Notices respecting Museums, Sales of Objects of Natural History, Names of Dealers, Lists of Prices, Visits to Collections, &c. Under this head it is almost needless to observe, that the British Museum, the Zoological Society and Garden, Linnæan Society, Medico-Botanical Society, Geological Society, and Wernerian Society, will be standing Articles.
4. MISCELLANEOUS, COLONIAL, AND FOREIGN INTELLIGENCE, in which similar Notices will extend to Foreign Institutions, Collections, Dealers, &c. and the Museum of the Jardin des Plantes, will form a leading feature.
5. A COMPARATIVE CALENDAR OF NATURE for different Parts of the World, and particularly for different and distinctly situated parts of Britain.
6. INDICATORIAL CALENDAR, pointing out the Objects to which the Student ought to attend during the ensuing month; the Insects, Birds, or other Animals, and the plants which should be collected; the Meteorological Appearances worthy of observation, &c. &c.
7. DESIDERATA; *i. e.* topics or particular points of Natural History, foreign or domestic, which require to be investigated, or respecting which farther information is desired. Many people in different parts of the world would wish to do something for Natural History, if they knew what to do; if their attention were directed, not to Natural History generally, but to particular objects or details. It will be the object of this article to direct friends of the science, at home or abroad, to particular points of enquiry.
8. QUERIES, AND ANSWERS TO QUERIES.
9. RETROSPECTIVE CRITICISM.
10. OBITUARY AND BIOGRAPHY.
11. CATALOGUE OF BOOKS in the different Departments of Natural History, with references to the pages of the proposed MAGAZINE, or of other Magazines, Journals, or Reviews, in which they have been analysed or reviewed.
12. NOTICES OF WORKS IN THE PRESS OR IN PREPARATION.

In each division and subdivision the following objects will be kept in view: first, to record every new fact belonging to the subject; secondly, to render every part of the subject interesting to the amateur and general reader; thirdly, to lead on the reader by degrees from the more elementary details to higher views and discussions; and fourthly, to translate all the technical terms and Latin words as they occur, and to give the derivation and accentuation of all systematic names.

The Work will be in the octavo form, and in respect to paper, printing, engravings, &c. got up in the same style as the GARDENER'S MAGAZINE. Six Numbers will complete a Volume of nearly 400 pages, with numerous engravings.

Communications addressed to "The Conductor of the Magazine of Natural History, at Messrs. Longman, Rees, Orme, Browne, and Green's, Paternoster-Row," will be thankfully received and acknowledged.
