The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Library.

*Usage guidelines*

To the best of our knowledge, this item is in the public domain. We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

*About the Institute*

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

June 1, 1828.

No. XVIII.—*New Series.*

# EXHIBITION

OF

## LODGE'S PORTRAITS

Of the most Illustrious Characters of English History, from the Galleries of the Nobility, and from Public Collections. To be viewed with Tickets only, which may be had free of expence upon application at Messrs. HARDING and LEPARD's, No. 4, Pall Mall East.

This Exhibition has been opened to display the whole Series of Subjects in Mr. LODGE's Work of the Portraits and Memoirs of the most Illustrious Personages of English History. The success of this Work having been altogether without precedent, and the Plates in consequence being exhausted and incapable of supplying the increasing demand for fine impressions, long prior to the Work having attained completion, it has been resolved, for the purpose of keeping pace with the increasing patronage of the Public, to engrave an entirely fresh set, with the same regard to excellence as that which is now in course of publication; and in order to meet the convenience of every class of purchasers, to recommence the Publication of this Work in *monthly numbers*, and thus introduce it at an easy rate to the shelves of every well-furnished book-case in the kingdom.

### PLAN OF PUBLICATION.

1. A number will be regularly published every Month, containing three highly-finished Portraits, with their corresponding Memoirs, in Imperial Octavo, price Seven Shillings and Sixpence.

2. The Work will be sold at every Booksellers in the Kingdom, and delivered monthly with the Magazines and Reviews.

Subscribers are requested to forward their names either to the Publishers, or to their respective Booksellers in any part of the Kingdom, but with directions to have them forwarded to the London Publishers forthwith, because the best Impressions will be appropriated to the first Subscribers; and unless Orders are registered in the Subscription Book at the Publishers, the earliest Impressions cannot be ensured to Country Booksellers.

The Edition of the Work now publishing every Two Months will be continued with the same regularity and excellence as have attended it from its commencement; and by adding Sixty additional Subjects to those already in the course of publication, the Work will be carried through the last Century to the Death of NELSON; thus perpetuating in one collected Series the Portraits and Memoirs of *all* the most eminent persons of the country, from the first introduction of portrait painting to the present time.

LONDON: PUBLISHED BY HARDING AND LEPARD, 4, PALL-MALL EAST.

The Subscribers to the Botanical Magazine are respectfully informed, that owing to an unusual delay of the Parcel from Glasgow, the Colourer has been unable to get the whole of the Plates of the present Number coloured; the Double-Plate of the *Palm*, belonging to this Description, must, therefore, unavoidably, be given in the next Number.

# GENERAL INDEXES

TO THE

## Botanical Magazine.

Mr. CURTIS begs to inform the Subscribers to this Work, that the GENERAL INDEXES are now printed, and will be ready for delivery on the 1st of July next: he trusts they will be found to be as simple; and extensively useful, as any form they could be arranged under; they consist of

- 1st,—A GENERAL ALPHABETICAL ENGLISH INDEX, with the Volume and Number of the Plate prefixed to each Plant; to which the Latin Name is added.
- 2d,—A GENERAL ALPHABETICAL LATIN INDEX, with the same reference to Volume and Plate; to which the English Names are added.
- 3d,—A GENERAL SYSTEMATICAL LATIN INDEX, with the same reference to Volume and Plate; to which the English Names are added.

Whatever arrangement the Subscribers have adopted in binding their volumes, the above three forms must be eligible for reference, the Work being mostly bound in the order of publication, the present Index forms a convenient sized volume to bind with it.

This Index, to many who do not possess the Work will be very desirable, for ascertaining what plants are figured in it for occasional reference. As an additional interest to this appendage to the Botanical Magazine, a portrait, with a sketch of the Life and Writings of Mr. WILLIAM CURTIS, the original author of it, is added; and at the end of the Index, blank leaves are inserted, for the continuation of the Index in Manuscript, as many years may perhaps elapse before another General Index will be necessary.

The sale of the former General Index was very limited in proportion to the number of sets of the Work then out; Mr. CURTIS has, therefore, only printed of the present Index equal to about two-thirds of the number of copies extant, and hopes no time will be lost by the regular Subscribers to the Work in applying for it; because, whenever it may be out of print, it can never repay the expence of reprinting.

---

*Apply for the above to Mr. CURTIS, Prospect Row, Walworth;  
or at the Publishers of the Botanical Magazine.*
