About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

PERRYIAN PEN.

THE flexibility of this *entirely new* instrument is so absolutely *natural*, that the action of the pen "*in metal*" can now no longer be distinguished from that of the goose quill. Nor does this pen possess the property of durability in a less eminent degree than that of flexibility. Its construction is such that it accommodates itself to writers and writing of all descriptions.—The packets are of two sizes—the larger containing Nine Pens, price 3s.; the smaller, Four, price 1s. 6d. Also, the Office Pen, in packets of Nine, price 2s.; and the Varnished, in packets of Nine, price 1s.; together with the Lithographic, Mapping, Drawing, and all other kinds of Perryian Pens, at the usual prices. To be had of all Stationers and Dealers in Metallic Pens, and at the *Manufactory*, No. 37, Red Lion Square, London.

ON THE FIRST OF JANUARY 1833 WILL BE PUBLISHED,
Uniform in size, and at the same cheap rate as the 'Gallery of Portraits' produced
under the superintendence of the Society for the Diffusion of Useful Knowledge, Part I.
to be continued every fortnight, and to be completed in 24 Parts, each containing THREE
FINE PORTRAITS, with accompanying Memoirs, price 2s. 6d.

I.
THE BIBLICAL ANNUAL,
(Uniform with the Geographical Annual.)

Containing FINELY-EXECUTED and BEAUTIFULLY-COLOURED ENGRAVINGS from STEEL, by STARLING, of all the TRIBES and COUNTRIES mentioned in Sacred History; with Plans of the CITY OF JERUSALEM and THE TEMPLE; and a GENERAL INDEX, upon an original and most comprehensive plan, exhibiting, at one view, all that is Geographically and Historically interesting in the Holy Scriptures. Price, elegantly bound in Morocco, 21s.

OPINIONS OF THIS WORK.

"This beautiful publication is executed in a style of Engraving beyond which, we suppose, art cannot go. It is the more acceptable, as charts of the countries mentioned in the Bible have hitherto been either very incorrect, or, if well executed, inaccessible to the public on account of their enormous prices."—*Monthly Review*.

"This work will be reckoned one of the most useful as well as elegant and cheap publications of modern times."—*Tyne Mercury*.

"The Geographical Annual is one of the most successful publications, and certainly this Biblical is in no way its inferior. The maps are executed with the greatest care, and the general index is of the highest value. We know not the work we could more conscientiously recommend as a valuable and beautiful present."—*Athenæum*.

"This beautiful little work is, indeed, a publication so well put together in every respect, that a more useful and agreeable companion to the reading of the Scriptures could not be devised."—*Literary Gazette*.

"We are pleased to add our most unequivocal commendation of this very useful publication."—*Christian Remembrancer*.

"It is a very excellent work, and a desideratum in families."—*Spectator*.

"The Index must be of great value and interest, as well to the historical as to the biblical student."—*Carlisle Patriot*.

"The maps are curious and interesting to any student; but to the biblical reader they are invaluable for the information they communicate."—*Tyne Mercury*.

II.
THE GEOGRAPHICAL ANNUAL,
1833,

Containing 100 BEAUTIFULLY-COLOURED STEEL ENGRAVINGS, by STARLING, of all the STATES, KINGDOMS, and EMPIRES throughout the World, including the NEW DISCOVERIES and CHANGES that have taken place to the present time, and an ORIGINAL MAP OF GREAT BRITAIN, according to the Constitution of 1832. Price, elegantly bound in Morocco, 21s.

"Of all the Annuals, this is unquestionably the most useful. It is one of the most delightful books that can be given or received at a season of the year when to make a present becomes a sort of duty."—*New Monthly Magazine*.

"This beautiful and most useful little volume is a perfect picture of elegance, containing a vast sum of Geographical information. A gift better calculated to be long preserved, and often referred to, could not be offered to favoured youth of either sex."—*Literary Gazette*.

"The utility of this valuable volume almost eclipses its beauty, in our estimation. It is an ornament for the boudoir or the drawing-room, while it is absolutely necessary for the study."—*Atlas*.

"It is the most perfect gem which has ever been published."—*Bristol Journal*.

III.
THE HISTORICAL ANNUAL
PRESENTS.

These Works illustrate the Romantic Annals of England, France, Italy, and Spain, and comprise also a short History of each Country.

1. ENGLAND. By HENRY NEELE. From the Norman Conquest to the Restoration. 3 vols. 18s.
2. FRANCE. By LEITCH RITCHIE. From the time of Charlemagne to the Reign of Louis XIV. 18s.
3. ITALY. By CHARLES MACFARLANE. From the Lombard Epoch to the Seventeenth Century. 3 vols. 18s.
4. SPAIN. By M. TRUBA. From the time of Roderic to the Seventeenth Century. 3 vols. 18s.

"The plan of this work is novel, and of a very interesting description. It is the realization of that which has been often said, and often felt,—that the annals with which the history of every country is thickly strewn, are in themselves far more romantic than the happiest inventions of the most ingenious novelists and poets. . . . They are valuable illustrations of manners, and striking commentaries on the history of the country."—*Times*.

The high order of talent which the proprietors have ensured for the pages of this work, has led to success far beyond their most sanguine expectations. They have now the satisfaction of stating, that the arrangements for enriching the embellished portion of the COURT MAGAZINE are completed, and that the engraving of WINDSOR CASTLE, produced on the 1st of Nov. forms No. 1 of the

Landscape Gallery of the Seats of the Nobility and Royal Residences,

From original drawings by WILLIAM DANIELL, Esq. R.A. which will be continued monthly, together with the highly-finished engravings of the

Portrait Gallery of the Female Nobility,

And the finely-coloured engravings from original drawings by MR. PARRIS, which are expressly designed for THE COURT MAGAZINE, to illustrate in the most beautiful and perfect manner

The Newest English and Foreign Costumes,

which are communicated, with full descriptions, by MADAME MARADAN CARSON, the celebrated Modiste of Hanover Square. Reviews of Literature, Music, the Drama, and the Arts, are also given, with a Register of Events both at home and abroad.

CYCLOPÆDIA OF PRACTICAL MEDICINE.

On the 1st of November was published Part XI. containing

Hydrophobia	By DR. BARDSLEY.	Identity.....	By DR. MONTGOMERY.
Hydrothorax	DR. DARWALL.	Impetigo	DR. A. T. THOMSON.
Hypertrophy	DR. TOWNSEND.	Impotence.....	DR. BEATTY.
Hypertrophy of the Heart	DR. HOPE.	Incontinence of Urine.	DR. CUMIN.
Hypochondriasis	DR. PRICHARD.	Incubus.....	DR. WILLIAMS.
Hysteria	DR. CONOLLY.	Indigestion	DR. TODD.
Ichthyosis	DR. A. T. THOMSON.		

Edited by

JOHN FORBES, M. D. F.R.S. Physician to the Chichester Infirmary, &c.
ALEXANDER TWEEDIE, M. D. Physician to the London Fever Hospital, &c.
JOHN CONOLLY, M. D. late Professor of Medicine in the London University, &c.

The "CYCLOPÆDIA OF PRACTICAL MEDICINE" is now more than half finished. Parts I. and II. being reprinted, the whole may be had by one or more parts at a time;—or the First and Second Volumes may be had neatly bound and lettered, at the same price as in Parts. The Work will be continued monthly, price 5s. each Part. The whole will be comprehended in Three large Volumes, containing as much matter as is usually found in *ten* ordinary sized Octavo, and will be completed in Six months.

"The CYCLOPÆDIA OF PRACTICAL MEDICINE is likely to prove of more importance to the medical profession than any single work that has ever appeared in this country; it is the production of an Association of Sixty Physicians of the first eminence in the three kingdoms, each writer undertaking the subjects to which his attention has been more particularly directed. Every article bears the author's name, and thence derives a degree of authenticity and value not attainable under the old system of anonymous publication." *Hampshire Telegraph.*

"This Work goes on prosperously; its success is now beyond doubt. We strongly recommend it as by

far the best, indeed the *only good* Work of the kind in the English language; it promises, in fact, to be a national concern." *Dr. Johnson's Medico-Chirurgical Review, July, 1832.*

"Such a Work as this has long been wanting in this country, and will be very desirable to medical students.—British medicine ought to have set itself forth in this way much sooner. We have often wondered that the medical profession and the enterprising publishers of Great Britain did not, long ere this, enter upon such an undertaking as a *Cyclopædia of Practical Medicine.*"—*Medical Gazette.*

Such are the observations made on this comprehensive and valuable work, which will be no less useful to the practitioners in the country, to the medical officers of the army or navy, and to foreigners desirous of obtaining, in one view, a knowledge of the present state of practical medicine in Great Britain, than to the medical student.

Of the sixty physicians whose names are announced as contributors to the Cyclopædia, there is not one who is not already known as an author, or distinguished as a practitioner of medicine. In the London list are the names of Drs. PARIS, ROGET, CLUTTERBUCK, ELLIOTSON, MARSHALL HALL, LOCOCK, TWEEDIE, HAWKINS, GREGORY, HOPE, CLARKE, THOMSON, CRAWFORD, QUAM, WILLIAMS, GILKREST, and ELLIOTSON; among the Dublin contributors are Drs. TOWNSEND, APJOHN, CHEYNE, CRAMPFON, JACOB, MARSH, and STOKES; Drs. CUMIN and THOMSON, of Glasgow; and Dr. SCOTT, of Edinburgh;—names, all of which are honorably known to the medical profession. Dr. FORBES, of Chichester, one of the editors, has the credit of having introduced into English practice a knowledge of the discoveries of Laennec, and of having most successfully directed his attention to the indications afforded by the use of the *stethoscope* in diseases of the chest. Several provincial physicians have undertaken portions of the work, among whom are Dr. BARDSLEY, of Manchester; Dr. DARWALL of Birmingham; Dr. HANCOCK, of Liverpool; Dr. PRICHARD, of Bristol; Dr. BARLOW, of Bath; Dr. GOLDIE, of York; Dr. ROBERTSON and Dr. KERR, of Northampton; Dr. ASH, of Norwich; Dr. BROWN, of Sunderland; Dr. TODD, of Brighton; Dr. CHEYNE, of Sherrington; and Dr. CONOLLY, of Warwick, who is also one of the editors. These names the proprietors conceive afford every assurance that the work will be worthy of British medical science, affording full and complete information on every subject connected with practical medicine, so as to constitute, in itself, a complete library of practical reference.

The work is beautifully printed on fine paper, royal octavo, in double columns, and forms a very handsome library book.

London: SHERWOOD, GILBERT, and PIPER, and BALDWIN and CRADOCK, Paternoster Row; WHITTAKER, TREACHER, and Co., Ave-Maria Lane.

SIR JOHN SINCLAIR'S CODE OF AGRICULTURE.

This day is published, a New Edition, considerably improved, price 1l.

THE CODE of AGRICULTURE, including Observations on Gardens, Orchards, Woods, and Plantations, with an Account of all the recent Improvements in the Management of arable and grass Lands. By the Right Hon. Sir JOHN SINCLAIR, Bart. Founder of the Board of Agriculture.

"Sir John Sinclair's 'Code of Agriculture is one of the most valuable books of the year. In point of fact, it concentrates the knowledge amassed during the experience of a long life, passed amidst the best opportunities of collecting information; and exhibits the results in a form condensed with great logical acumen, of all the labours and publications of modern writers on agriculture. It merits, therefore, a place in the library of every gentleman and farmer in the country, and of every individual who has any turn for agricultural pursuits."—*Monthly Magazine*.
