The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Library.

Usage guidelines

To the best of our knowledge, this item is in the public domain. We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

VOL. VII.

February 1, 1833.

No. LXXIV.—*New Series.*

Price 3s. 6d. Coloured and 3s. Plain,
(*To be continued Monthly*)

**CURTIS'S
BOTANICAL MAGAZINE;**

OR

Flower Garden Displayed :

In which the most Ornamental FOREIGN PLANTS cultivated in the Open Ground,
the Green House, and the Stove, are accurately represented and coloured.

CONDUCTED

By SAMUEL CURTIS, F. L. S.

THE DESCRIPTIONS

By WILLIAM JACKSON HOOKER, L. L. D.

F. R. A. and L. S. and Regius Professor of Botany in the University
of Glasgow.

London :

Printed by Edward Couchman, 10, Throgmorton Street,

FOR THE PROPRIETOR SAMUEL CURTIS,
AT THE BOTANICAL MAGAZINE WAREHOUSE, GLAZENWOOD,
NEAR COGGESHALL, ESSEX;

Also by SHERWOOD, GILBERT, & PIPER, 23, Paternoster Row; J. & A. ARCH, Cornhill;
TREUTTEL & WURTZ, Soho Square; BLACKWOOD, Edinburgh; and in Holland, of
Mr. Gt. ELDERING, Florist, at Haarlem :

And to be had of all Booksellers in Town and Country.

TO ADVERTISERS.

CURTIS'S
BOTANICAL MAGAZINE.

The **BOTANICAL MAGAZINE**, which has been published without intermission on the first day of every Month for the last Forty-five Years, and is circulated amongst the most respectable classes of society, from its established reputation, elegance, and scientific tendency, must be viewed with interest by all persons under whose observation it comes, and will be found a most desirable medium to Advertisers.

All persons wishing to advertise **WORKS ON SCIENCE**, ingenious **IMPROVEMENTS OR INVENTIONS**, more particularly as they may relate to **Horticulture, Agriculture**, or any subject, in which not only the **Nobility and Gentry**, but all scientific persons would feel an interest, are respectfully informed by Mr. **CURTIS**, that his **BOTANICAL MAGAZINE** forms one of the best vehicles for bringing such improvements under the notice of the most intelligent persons in these kingdoms, as well as abroad. The **Work** is elegantly printed in **Royal Octavo**, and the **Advertisements** admitted are of a select description.

TERMS. For a whole page royal octavo, £2 2s.; half a page, £1 1s.; one-third of a page, 15s.; not exceeding ten lines, 10s. 6d. For **Stitching-in Proposals, Prospectuses, &c.** not exceeding four pages, £1 11s. 6d.

Prospectuses, &c. sent for **Stitching-in** must be perfectly dry, as the **Plates of the Work** are beautifully coloured; and would be much injured by damp **Prospectuses**.

N. B. It is requested, that all **Advertisements, &c.** may be sent to the **Publishers, Messrs. SHERWOOD, GILBERT, and PIPER, 23, Paternoster Row**, by the 21st of the month.

TO BE CONTINUED MONTHLY, AND MAY BE HAD OF ALL BOOKSELLERS,

NO. I. OF THE
FLORICULTURAL CABINET,
And Florist's Magazine,

Containing a description of the Culture and Management of Flowering
Plants, with Accounts of every thing NEW, INTERESTING, and USEFUL, con-
nected with their cultivation, &c.

CONDUCTED BY JOSEPH HARRISON,

Gardener to the Right Hon. Lord Wharfedale.

The Plan of the above Work will comprise Original Communications,
interesting and useful Extracts, Reviews, Engravings and Notices of new
and beautiful Exotic, or Hardy Flowering Plants, Engravings and Descrip-
tions of all British Plants. A great number of the Engravings will be co-
loured. No. I. will contain a Coloured Engraving of a new and splendid
Striped Crimson Dahlia.

This Publication has been projected with the view of affording those
persons who are cultivators of Flowers an opportunity of procuring a Work,
which will be exclusively devoted to whatever is connected with Floricul-
ture, so that persons wishing for information quite unconnected with a
quantity of matter which treats upon very different subjects, may be so ac-
commodated at a cheap rate, and thus prevent any unnecessary expense
being incurred. The Conductor has frequently been solicited to commence
a Work like the present, that should embrace Floriculture alone, and be so
low in price as to be within the reach of all classes of society. In com-
plying with such solicitations, the Conductor pledges himself that no exertion
shall be wanting, or expense spared to render the Work alike acceptable to
all, so that the Exotic, Amateur, or Cottage Florists may be equally accom-
modated.

It is not intended for the present publication to be a rival to any existing
one, but in addition "to meeting the wishes of that class of persons above
stated," to be an auxiliary in promoting a still more general interest for
Floriculture; and in this delightful department of Gardening it will be the

endeavour of the Conductor to present every information in as concise a manner as possible, and the Work being printed on a small type, a mass of matter will be contained in each number. A very considerable quantity of valuable Communications are already in hand and promised from various Gentlemen, Practical Gardeners, Florists, &c. of first rate abilities.

In the prosecution of the above plan, and to render the Work in the highest degree acceptable, the Conductor very earnestly solicits the assistance of every lover of Floriculture, by their communicating the result of any improvements in the culture of Flowering Plants, or any other interesting subject connected with Floriculture, Accounts of any new or rare Plants, whether Exotic or Hardy, Lists of Horticultural or Floricultural Meetings, &c. all will be highly acceptable.

Communications may be addressed for the Conductor, to the care of the Publishers, Messrs. WHITTAKER, TREACHER, & Co., Booksellers, Ave Maria Lane, London.

Also shortly will be Published, and Conducted by JOSEPH HARRISON,

THE

GARDENER & FORESTER'S RECORD

Of the Culture and Management of Fruits, Vegetables, Forest Trees,

And of all subjects connected with the above Arts, calculated for information and improvement therein. *Price 6d.* To be continued monthly, and to be had of all Booksellers.

Communications in these Departments of Gardening will also be thankfully received; addressed to the care of WHITTAKER, TREACHER & Co. the Publishers.

RIDGE, PRINTER, SHEFFIELD.

This Day is published, Price Fifteen Shillings, boards,

GENERAL INDEXES

TO THE

Botanical Magazine.

Mr. CURTIS begs to inform the Subscribers to this Work, that the GENERAL INDEXES are now printed, and are ready for delivery: he trusts they will be found to be as simple, and extensively useful, as any form they could be arranged under; they consist of

- 1st,—A GENERAL ALPHABETICAL ENGLISH INDEX, with the Volume and Number of the Plate prefixed to each Plant; to which the Latin Name is added.
- 2d,—A GENERAL ALPHABETICAL LATIN INDEX, with the same reference to Volume and Plate; to which the English Names are added.
- 3d,—A GENERAL SYSTEMATICAL LATIN INDEX, with the same reference to Volume and Plate; to which the English Names are added.

Whatever arrangement the Subscribers have adopted in binding their volumes, the above three forms must be eligible for reference, the Work being mostly bound in the order of publication, the present Index forms a convenient sized volume to bind with it.

This Index, to many who do not possess the Work will be very desirable, for ascertaining what plants are figured in it for occasional reference. As an additional interest to this appendage to the Botanical Magazine, a portrait, with a sketch of the Life and Writings of Mr. WILLIAM CURTIS, the original author of it, is added; and at the end of the Index, blank leaves are inserted, for the continuation of the Index in Manuscript, as many years may perhaps elapse before another General Index will be necessary.

The sale of the former General Index was very limited in proportion to the number of sets of the Work then out; Mr. CURTIS has, therefore, only printed of the present Index equal to about two-thirds of the number of copies extant, and hopes no time will be lost by the regular Subscribers to the Work in applying for it; because, whenever it may be out of print, it can never repay the expence of reprinting.

Apply for the above to Mr. CURTIS, Glazenwood, near Coggeshall, Essex; or at the Publishers of the Botanical Magazine.

MR. SAMUEL CURTIS,

(PROPRIETOR OF THE BOTANICAL MAGAZINE,)

Of *Glazenwood*, near *Coggeshall*, *Essex*, begs to recommend the following Articles from his Nursery.

RHODODENDRON *Smithii*, 2s. 6d. each. Curious hybrid varieties from *Arboreum* and *Ponticum*, fine Plants in Pots, 5s. Seedlings from *Catawbiensis*, Eighteen Inches to Two Feet, 1s. 6d. Seedlings in great variety of *ponticum*, Eighteen Inches, 1s. each; *hirsutum* in varieties, and *ferrugineum*, 1s. 6d. each. *Ponticum* for extensive planting from £2 to £4 per 100.

AZALIAS in great variety, fine Plants with Flower Buds, 1s. 6d. each; *Scarlet*, 2s. 6d.; *pontica*, Eighteen Inches, 1s. each; for extensive planting, from £2 to £4 per 100. Seedling *AZALIA Indica*, from Twenty to Thirty Inches, 3s. each.

STUARTIA *Marylandica* and *Mulachodendron*, beautiful flowering American Shrubs, 1s. 6d. each.

An extensive collection of American Plants consisting of *ANDROMEDAS*, *KALMIAS*, *LEDUMS*, *MAGNOLIAS*, *STUARTIAS*, *VACCINIUMS*, &c. &c. averaging from 1s. to 1s. 6d. each in collections.

ROSES. A superb collection of Six Hundred fine varieties, with their Names, from 6d. to 1s. each.

CHINA ROSES in great variety, averaging 1s. each.

CLIMBING ROSES in great variety, averaging 1s. each; *Double Macartney*, 3s. 6d.; *Double Ayrshire*, vel *Rosa Ruga*, 3s.

TREE PÆONIA, 3s. 6d. to 5s. each; *PÆONIA Papaveracea*, 15s. to 21s. each; *PÆONIA edulis* in varieties, 2s. each; other herbaceous *PÆONIAS*, in great variety, at 1s. 6d. each.

Herbaceous plants in great variety.

DOUBLE WHITE PRIMROSE 21s. per Dozen.

CACTUS *speciosa*, 1s., *speciosissimus*, 1s. 6d. to 5s., *truncatus*, 1s. 6d. to 3s. 6d., some curious Seedling hybrid varieties, very beautiful, 2s. 6d. to 10s. 6d. each.

YUCCA *aloifolia*, beautifully variegated foliage, 15s.; other kinds from 2s. to 5s. each.

DAHLIAS. A fine collection principally Seedlings of Mr. CURTIS'S raising; together with the most approved named sorts, from 1s. 6d. to 2s. 6d. each.

DAHLIA SEED from fine Double Flowers 2s. 6d. per paper.

APPLES. An excellent Collection of the best and most useful kinds, fine Dwarf Standards, which have been headed back two or three times, and which will come into bearing very soon, at 1s. each. Strong Plants of the *Glazenwood Gloria Mundi* Apple, Fruit of which Mr. CURTIS has grown, weighing 26 oz., at 2s. 6d. each.

PEARS. Fine Three and Four Year's old Trees of the finest sorts, 1s. each; trained for Walls, 3s. 6d. each.

PLUMS in great variety, dwarfs, 1s.; standards, 1s. 6d. *Gemerina*, the large Portugal Plum, 3s. 6d. each. *Washington*, 3s. 6d.

CHERRIES in great variety, dwarfs, 1s.; standards, 1s. 6d. each. *Honywood's New Ruby heart*, 2s. 6d. each.

PYRUS *Spectabilis*, 1s. 6d. Fine varieties of *Crabs*, 1s. to 1s. 6d. each.

N. B. The *Fruit Trees* are grown on a poor Loam, and will remove to better advantage to the Purchaser, than from the rich soil of the London Nurseries.
