The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Library.

Usage guidelines

To the best of our knowledge, this item is in the public domain. We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

VOL. VIII.

July 1, 1834.

No. XCI.—*New Series.*

Price 3s. 6d. Coloured and 3s. Plain,

(To be continued Monthly)

**CURTIS'S
BOTANICAL MAGAZINE;**

OR

Flower Garden Displayed:

In which the most Ornamental FOREIGN PLANTS cultivated in the Open Ground, the Green House, and the Stove, are accurately represented and coloured.

To which are added,

THE DESCRIPTIONS

By WILLIAM JACKSON HOOKER, L. L. D.

F. R. A. and L. S. and Regius Professor of Botany in the University
of Glasgow.

London:

Printed by Edward Conelman, 10, Throgmorton Street,

FOR THE PROPRIETOR SAMUEL CURTIS,

AT THE BOTANICAL MAGAZINE WAREHOUSE, GLAZENWOOD,

NEAR COGGESHALL, ESSEX;

Also by SHERWOOD, GILBERT, and PIPER, 23, Paternoster Row; J. & A. ARCH, Cornhill;
TRETTEL & WURTZ, Soho Square; BLACKWOOD, Edinburgh; and in Holland, of
Mr. G. ELDERING, Florist, at Haarlem;

And to be had of all Booksellers in Town and Country.

MR. SAMUEL CURTIS,

(PROPRIETOR OF THE BOTANICAL MAGAZINE,)

Of the *Glazenwood Horticultural Grounds, near Coggeshall, Essex,*
begs to recommend the following Articles from his Stock.

APPLES. A very choice and extensive Collection of the best and most useful, both for Dessert and Culinary purposes, among which he recommends his *GLAZENWOOD GLORIA MUNDI* Apple, the Fruit of which he has grown, to the enormous weight of Twenty-six Ounces; dwarf trees 2s. 6d. The *NEW AROMATIC PIPPIN*, has been allowed by competent judges to surpass all others for flavour, and will keep well until May and June, dwarf trees 2s. 6d. each. *Scarlet Pearmain*, *Golden Russet Nonpareil*, *Court Wick*, and *New Golden Reimette* from their very abundant bearing; long keeping and free growth, are very desirable Apples, dwarf trees, 1s.; standards, 1s. 6d. Mr. CURTIS, in his Collection at this place, which consists of Fifty Acres, planted with Apples and other Fruit Trees, finds them the most productive and best worth growing.

PEARS; among which the *MARIE LOUISE*, *PASS COLMAR*, *SECKLE*, &c. are well worth cultivating, fine young trees, 1s. trained for walls, 3s. 6d. each.

PLUMS. An extensive collection kept, among which the *WASHINGTON* is highly recommended, dwarf trees of it 2s. trained, as well as other fine kinds, 3s. 6d.

PEACHES, NECTARINES, and APRICOTS trained for walls, at from 3s. 6d. to 5s.

CALCEOLARIAS, thirty or forty fine varieties, with their names, at 1s. 6d. each, in small pots.

ROSES. The Collection of which consists of upwards of eight hundred varieties, by far too numerous to insert here, embraces the best known sorts both English and Foreign, as are worthy of particular notice. Mr. CURTIS has paid great attention to this most beautiful shrub, and flatters himself, that he can sell better Flowers at low Prices than any other Nurseryman; and he more particularly recommends to the Public a new and beautiful Dark Rose, which he thinks superior in colour to *Tuseany* and most double dwarf plants, 5s.

CHINA ROSES of sorts, in great variety, at 1s.; Climbing ditto, as *White* and *Yellow Banksia*, *Blush* and *Red Bourzolt*, *Noisette*, *Grandiflora*, *Grevillea* or *Seven Sisters*, and *Red and White Multiflora*, &c. at 1s.

SCARLET GREVILLEA 3s. 6d. a beautiful Rose and hardy; *Double Ayrshire* or *Rosa Ruga*, *Double Macartney*, and many other fine varieties from 1s. 6d. to 3s. 6d.

TREE PEONIA; of which Mr. CURTIS has a most extensive stock, from 3s. 6d. to 5s.; that beautiful variety the *P. papaveracea* from 5s. to 7s. 6d. The Chinese varieties of herbaceous Pæonias (*PEONIA albiflora*), the latest flowering of all the Genus, and very beautiful; fine plants of the *Fragrant*, *Double White*, and *Humel*, 1s. 6d. each; other *Herbaceous Pæonias*, 1s. each, consisting of upwards of Twenty fine sorts.

Mr. C. from having a large Stock of **AMERICAN PLANTS** is induced to offer *RHODODENDRON Catawbiensis* Seedlings, eighteen inches high, at 1s. 6d.; some very fine Seedling varieties well set with bloom at 2s. 6d. A fine sort of *RHODODENDRON*, known in the Trade as *RHODODENDRON Curtisi*, 3s. 6d. Any Nobleman or Gentleman wishing to plant *Rhododendron* extensively may be supplied with them from £2 to £4 per hundred.

AZALIAS. Fine *Scarlet*, well set with bloom, 2s. 6d. each; *Orange* 3s. 6d.; *Yellow*, *Pink*, and *White*, in very great variety, 1s. 6d. each, or £5 per hundred. *Yellow A.* eighteen inches, 1s. or £3 per hundred. *KALMIA latifolia*, fine plants well set with bloom, 1s. 6d. *STUARTIAS* of sorts handsome flowering shrubs, 1s. 6d. each.

CACTUS Curtisi, or *Hybrida*, fine plants from 2s. 6d. to 10s. 6d. each. *Speciosissima*, from 1s. to 21s.

YUCCA. *Aloifolia* with beautiful variegated foliage, extremely well adapted for Conservatories, from 7s. 6d. to 21s.

MAGNOLLIAS, CAMELLIAS, and GREENHOUSE PLANTS in very great variety, *GLYCINE Sinensis*, from 1s. 6d. to 3s. 6d. fine plants.

AMARYLLIS Johnsonia and *Vittata*, from 2s. to 5s.

CALCEOLARIAS, consisting of Fifty fine sorts, in Collections, at 1s. to 2s. each.

A regular assortment of **DUTCH FLOWER ROOTS** always imported. Fine *DOUBLE HYACINTHS*, with their names 6d. to 1s. *GLADIOLUS psittacinus*, (see *Botanical Magazine*, plate 3032) 1s. 6d. each.

This Day is published, Price Fifteen Shillings, boards,

GENERAL INDEXES

TO THE

Botanical Magazine.

Mr. CURTIS begs to inform the Subscribers to this Work, that the GENERAL INDEXES are now printed, and are ready for delivery: he trusts they will be found to be as simple, and extensively useful, as any form they could be arranged under; they consist of

1st,—A GENERAL ALPHABETICAL ENGLISH INDEX, with the Volume and Number of the Plate prefixed to each Plant; to which the Latin Name is added.

2d,—A GENERAL ALPHABETICAL LATIN INDEX, with the same reference to Volume and Plate; to which the English Names are added.

3d,—A GENERAL SYSTEMATICAL LATIN INDEX, with the same reference to Volume and Plate; to which the English Names are added.

Whatever arrangement the Subscribers have adopted in binding their volumes, the above three forms must be eligible for reference, the Work being mostly bound in the order of publication, the present Index forms a convenient sized volume to bind with it.

This Index, to many who do not possess the Work will be very desirable, for ascertaining what plants are figured in it for occasional reference. As an additional interest to this appendage to the Botanical Magazine, a portrait, with a sketch of the Life and Writings of Mr. WILLIAM CURTIS, the original author of it, is added; and at the end of the Index, blank leaves are inserted, for the continuation of the Index in Manuscript, as many years may perhaps elapse before another General Index will be necessary.

The sale of the former General Index was very limited in proportion to the number of sets of the Work then out; Mr. CURTIS has, therefore, only printed of the present Index equal to about two-thirds of the number of copies extant, and hopes no time will be lost by the regular Subscribers to the Work in applying for it; because, whenever it may be out of print, it can never repay the expense of reprinting.

Apply for the above to Mr. CURTIS, Glaxentwood, near Coggeshall, Essex; or at the Publishers of the Botanical Magazine.

ORIGINAL EDITION OF
Mantell's Sussex Geology.

In Royal 4to. boards, published at £3 3s., reduced to £2 2s.,

**MANTELL'S
Fossils of the South Downs;**

OR
ILLUSTRATIONS OF THE GEOLOGY OF SUSSEX,
WITH

Executed by Mrs. MANTELL, from Drawings by the Author.

L. A. LEWIS, 15, POULTRY, LONDON.

BRITISH BOTANY.

The Second Edition, price 10s. 6d., bound in Cloth,

A SYSTEMATIC ARRANGEMENT OF BRITISH PLANTS. By W. WITHERING, M. D. *Condensed and brought down to the present period.* Preceded by an Introduction to the Study of Botany, accompanied with one hundred and fifty-five Figures, and one Coloured Plate. By W. MACGILLIVRAY, A. M. Conservator of the Royal College of Surgeons, Edinburgh.

* * * In this Edition the Introduction has been considerably enlarged, and nearly a Hundred Species of Plants have been added, chiefly of such as are peculiar to Ireland, to render the Work applicable to that country as well as to Great Britain.

London: Printed for Scott and Webster, Charter-House Square.

MR. DON'S IMPROVED EDITION OF

Miller's Gardener's Dictionary

Handsomely printed, in 4to, with numerous Wood Cuts, price £3 12s. each, in boards, the First and Second Volumes of

A GENERAL SYSTEM of GARDENING and BOTANY; containing a complete Enumeration and Description of all Plants hitherto known; with their generic and specific Characters, Places of Growth, Time of Flowering, Mode of Culture, and their Uses in Medicine and Domestic Economy: founded upon MILLER'S GARDENER'S DICTIONARY, and arranged according to the Natural System.

By **GEORGE DON, F.L.S.**

London: printed for J. G. & F. Rivington; J. & W. T. Clarke; Longman & Co.; T. Cadell; J. Richardson; Jeffery & Son; Baldwin & Cradock; J. Booker; J. Booth; Harvey & Darton; S. Bagster; Sherwood & Co.; Harding & Lepard; J. T. Setchel; Whittaker & Co.; Simpkin & Marshall; and E. Hodgson.

* * * The *third* Volume is in great forwardness; a Glossary is given in the first Volume, and an Index to each. The Work may also be had in Parts, (of which twenty-four are published,) at 6s. each.
