Statement on harmful and offensive content

The Hunt Institute Archives contains hundreds of thousands of pages of historical content, writing and images, created by thousands of individuals connected to the botanical sciences. Due to the wide range of time and social context in which these materials were created, some of the collections contain material that reflect outdated, biased, offensive and possibly violent views, opinions and actions. The Hunt Institute for Botanical Documentation does not endorse the views expressed in these materials, which are inconsistent with our dedication to creating an inclusive, accessible and anti-discriminatory research environment. Archival records are historical documents, and the Hunt Institute keeps such records unaltered to maintain their integrity and to foster accountability for the actions and views of the collections' creators.

Many of the historical collections in the Hunt Institute Archives contain personal correspondence, notes, recollections and opinions, which may contain language, ideas or stereotypes that are offensive or harmful to others. These collections are maintained as records of the individuals involved and do not reflect the views or values of the Hunt Institute for Botanical Documentation or those of Carnegie Mellon University.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

George

Dear Sir

LC 2445

I enclose my check for
\$126.00 to cover your invoice
27319 for two copies
of Book of Kells, just
received.

My remarks below are
not a complaint, but
they are a report.

Both of these copies are
slightly damaged. In
one copy the hinge of
the front end paper is
broken the full length.

In the other copy the hinge of the best end-
paper is broken and
torn at the top
for about 3"; and in
addition ~~each~~^{every} leaf
of the book has a
crease across the lower
outer corner.

There is no obvious
evidence that your
packaging was inade-
quate, nor do the
covers and the slip-
cases show damage.

3

My explanation of
the broken ~~package~~ ^{apparatus} is
that with such a large
boat, ~~when it is packed~~,
the boat (less its
cones) is a heavy
mass hanging in the
cones only by the
inadequate ^{coring} hinges
which all modern
commercial binding
provides. No matter
how firm the packaging
may be, if ~~it~~ ^{the package} sustains

a ^{violent} ~~scuffle~~ for the
heavy book under
the covers and often
strain these hinges
and sometimes damage
them. The only protection
I know is to supply
marion bands & have
poor account of the ^{effect} ~~result~~ in making to ^{explain} ~~confuse~~ the crease-
damage, up to the
~~confuse~~ that this was
antecedent to the
casing, the 'black'
of the book having been

5
banged ~~despatch~~ on the corner,
which resulted in
crease in each leaf.

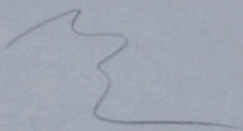

- It seems a shame
that, with all the
excellent work which
went into producing
this edition of the
Book & Vell, ~~that~~
the cheap way of our
modern civilization
mars the otherwise
fine result.

One more remark,
please. I make them
is no sewing, the
leaves being held to-
gether only by adhesion.
This I regret, but it
is probable that to
arrange the layers
in ~~equilibrium~~ and
then to do the sewing
might have raised,
the price too much to
sell the required number.

· Every day I marvel the
more at how our
much treated

technology depreciates
in these ~~ways~~ all ways
the quality of the
products it delivers
to us.

Thank you for your
indulgence

SCIENCE AND PUBLIC AFFAIRS

Bulletin of The Atomic Scientists

1020-24 EAST 58TH STREET • CHICAGO • ILLINOIS 60637
(312) DORCHESTER 5-5225

Dear Bulletin Reader:

Thank you for your order. We hope you like the sampling of Bulletin editorial fare you've seen so far.

Our "Stockholm Report" was described by one prominent scientist as "perhaps the most thorough coverage of this important U. N. Human Environment Conference that has yet been published."

Your first issue includes articles by scientists, statesmen, and scholars on the major issues of our day.

And there is so much more to come!

Just recently our Editorial Board approved a list of projects that boggles the mind because of the exciting range of subjects it covers. Ecology...arms control...space exploration...astronomy and astrophysics...over-population -- the safe use of nuclear power plants...genetic engineering -- and more.

To help us underwrite these projects I want to ask you now to extend your subscription for two years, or even three -- at an even greater savings than the special one-year rate I offered you before. Choose one of these low rates:

<u>Regular Price</u>	<u>You Pay</u>	<u>Your Cost Per Issue</u>
1 Yr. \$8.50	\$7.50	75c
2 Yrs. 14.50	14.00	70c
3 Yrs. 20.00	18.00	60c

We do hope you will give this matter some serious thought. Then choose the term you want (hopefully the three year term), and send us your check.

Needless to say, our regular cancellation privileges apply. If at any time you do not feel that SCIENCE AND PUBLIC AFFAIRS is everything you expect, you are entitled to a full refund on the unused portion of your subscription.

But we think you will agree that your small investment in the Bulletin is a very large investment in man's survival.

Cordially,

Jack Merring

Dear Sirs:

Please accept my order from your Catalogue 834 for the following two items:

84A	Durer, The complete woodcuts	£ 1	10s
258	Peter Schoeffer of Gernsheim etc.	£ 1	
	Postage, etc.		3s

	Credit, explained below		18s 1d
	Balance due	£ 1	14s 11d

I enclose a check for \$5.00 to cover this.

The credit cited is of long standing going back to March 1959 when I sent you \$4.00 for three items from your list No. 56, I believe. You were able to send only one of them, No. 43 (of which I believe I had ordered two copies) The charges for this were 10/6 (\$1.47) leaving me a balance of 13/6. I trust this credit is in order.

Sincerely yours,

George B. Van Schaack
