The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized item.

Usage guidelines

We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

Statement on harmful and offensive content

The Hunt Institute Archives contains hundreds of thousands of pages of historical content, writing and images, created by thousands of individuals connected to the botanical sciences. Due to the wide range of time and social context in which these materials were created, some of the collections contain material that reflect outdated, biased, offensive and possibly violent views, opinions and actions. The Hunt Institute for Botanical Documentation does not endorse the views expressed in these materials, which are inconsistent with our dedication to creating an inclusive, accessible and anti-discriminatory research environment. Archival records are historical documents, and the Hunt Institute keeps such records unaltered to maintain their integrity and to foster accountability for the actions and views of the collections' creators.

Many of the historical collections in the Hunt Institute Archives contain personal correspondence, notes, recollections and opinions, which may contain language, ideas or stereotypes that are offensive or harmful to others. These collections are maintained as records of the individuals involved and do not reflect the views or values of the Hunt Institute for Botanical Documentation or those of Carnegie Mellon University.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

UNITED STATES DEPARTMENT OF AGRICULTURE,

B

OFFICE OF SEED AND PLANT INTRODUCTION AND DISTRIBUTION.

Washington, D. C., May 22, 1907.

Mr. O. F. Cook,

Bureau Plant Industry.

Dear Mr. Cook:

The following quotations from a letter just received from Mr. S. Galbraith, Government Agronomist, Orange River Colony, Bloemfontein, may be of interest to you.

"It may interest you to know that the Apache corn from Central America promises to revolutionize our Mealie (corn) production. This year I had only 1/20 acre growing and the yields are very great being 7660 lbs. (cobs and grain) per acre, a marvellous yield for this country, since the average yield is about 3-10 sacks (203 lbs). per morgen. Should the Apache Mealie continue to yield as present I will have some satisfactiom after so much disappointment from drought and locusts.

I might state that the weights quoted are those of the newly harvested cobs".

I am writing to Mr. Galbraith and requestof him a few cobs of this Apache corm so that we may determine definitely what it is.

Yours very truly,

Agrostologist.

STANDARD FORM NO. 84

Office Memorandum • UNITED STATES GOVERNMENT

Dr. Ralph R. Shaw

U.S.D.A. Librarian, Washington, D. C.

DATE: Sept. 18, 1951

FROM

Dr. W. Andrew Archer, Curator

U.S. National Arboretum Herbarium, Beltsville, Md.

SUBJECT: Shipment of books, reprints and articles.

Today we are sending by department messenger 5 bundles of books, reprints and articles tied with twine. We are also sending two small books in a standard messenger envelope. We trust that these will be useful to you.

2635

Sept. 21, 1949

Mr. Ralph Shaw, Librarian U.S.D.A. Library, South Bldg., Wash., D. C.

Dr. W. Andrew Archer, Curator U. S. National Arboretum Herbarium, Plant Industry Sta. Beltsville, Md.

Dear Ralph:

At last I have finished checking Dr. O. F. Cocks' reprints. I have made up a set of available items for your reprint collection. Trying not to duplicate those you already have, in accordance with the photostat copies of cards which you sent me some months ago.

The publications are being sent by messenger in four bundles to the Acquisition Section of the U.S.D.A. Library, Washington, D. C.

We have finished the Cook bibliography and intend as soon as possible to mimeograph it, but we are waiting to include an intinerary of his travels. As soon as possible we shall send you a copy.

Sincerely,

co: Acquisition Section

Mr. Lazeron Ext. 6069
