The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized item.

Usage guidelines

We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

Statement on harmful and offensive content

The Hunt Institute Archives contains hundreds of thousands of pages of historical content, writing and images, created by thousands of individuals connected to the botanical sciences. Due to the wide range of time and social context in which these materials were created, some of the collections contain material that reflect outdated, biased, offensive and possibly violent views, opinions and actions. The Hunt Institute for Botanical Documentation does not endorse the views expressed in these materials, which are inconsistent with our dedication to creating an inclusive, accessible and anti-discriminatory research environment. Archival records are historical documents, and the Hunt Institute keeps such records unaltered to maintain their integrity and to foster accountability for the actions and views of the collections' creators.

Many of the historical collections in the Hunt Institute Archives contain personal correspondence, notes, recollections and opinions, which may contain language, ideas or stereotypes that are offensive or harmful to others. These collections are maintained as records of the individuals involved and do not reflect the views or values of the Hunt Institute for Botanical Documentation or those of Carnegie Mellon University.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

NATIONAL SCIENCE FOUNDATION

WASHINGTON, D.C. 20550

December 2, 1968

Dr. David J. Rogers
Department of Biology
University of Colorado
Boulder, Colorado 80302

Dear Dr. Rogers:

This is a more formal reply to your letter of 27 November. I am holding 9 am to 11 am on 9 December open for a meeting with you here. I look forward to discussing TAXIR with you as well as matters of even broader systematic importance.

Sincerely yours,

Richard F. Johnston
Program Director for
Systematic Biology

NATIONAL SCIENCE FOUNDATION
WASHINGTON, D.C. 20550

29 Nov. 68

Dear Mr. Rogers:

Your letter catches us at the close of
work, so I answer informally. I have marked
my calendar for 9 to 11 Monday, Dec. 9, and
trust that we should be able to meet
sometime in that period. Let us keep in
touch if schedules change -

With best regards,

Richard Wharton

27 November 1968

Dr. Richard F. Johnston
Program Director for Systematic Biology
National Science Foundation
Washington, D. C. 20550

Dear Dr. Johnston:

I plan to be in Washington on Monday, 9 December, and would very much appreciate the opportunity to discuss with you plans that we are hoping to develop for mounting the University of Colorado Museum's information retrieval system using our TAXIR system. Before I make a formal application to you I would like to know some details about possible inclusions in the grant request and their chances of success.

Please let me know if it is convenient to see you on Monday, the 9th, morning or afternoon.

Sincerely,

David J. Rogers
Professor of Biology

Dr. David J. Rogers
Department of Biology
University of Colorado
Boulder, Colorado 80302

Dear Dr. Rogers:

As Dr. Cowan is away from the office this week, he has asked me to reply to your letter of November 27. He will be pleased to see you but, unfortunately, he will be out of town December 11. However, the afternoon of the 10th is free after 2 p.m. and the calendar is also clear from 9 to 11 a.m. on the 12th. We will hold these times until we hear if you can conveniently fit either one of them into your schedule. Please let us know when we can expect you.

Sincerely yours,

Judith H. Cash

Taximetrics Laboratory
Department of Biology
Armory 101
University of Colorado
Boulder, Colorado 80302

Dear Dave:

I would be delighted to see you in Washington any time of the week of December 9. There are a number of problems that I would like to go over with you so that we can bring each other up to date on the various programs. We may have reached a solution on the problem of a programmer, which has been holding up any progress on getting a good printout that can be used by other people.

Sincerely,

Mason E. Hale
Chairman
Department of Botany

REGIONAL PLANT INTRODUCTION STATION
WASHINGTON STATE UNIVERSITY
JOHNSON HALL 59
PULLMAN, WASHINGTON 99163

December 3, 1968

TO: Dave Rogers, Taximetrics Lab., Univ. of Colo., Boulder, Colo.
FROM: S. M. Dietz, Reg. Plant Introduction Sta., Pullman, Wash.
SUBJECT: Data Processing meeting in Beltsville.

Our New Crops Work Conference will be held in the Conference Room, 4th Floor, Room 401, North Building, Plant Industry Station, Beltsville, Maryland. The discussion on Automatic Data Processing (Status Report) will be lead by Dr. A. Jack Oakes from 10:30 to 11:45 A.M. on December 12.

I will be staying in the Del Haven Whitehouse Motel at the south edge of the Plant Industry Station (December 8-13) should you wish to contact me. Hope you got the information to the Coordinators as I requested.

*Thanks,
Sam*

20 November 1968

Dr. John Creech
USDA New Crops Research Branch
CRD Plant Industry Station
Beltsville, Maryland 20705

Dear Dr. Creech:

Sam Dietz has notified me that you are expecting us on December 12 in the morning. I will be happy to be there. Since I will be staying in Washington, could you give me directions for the most rapid means for getting to your office in Beltsville. I will appreciate having some sort of directions.

Sincerely,

David J. Rogers
Professor of Biology

UNIVERSITY OF COLORADO

BOULDER, COLORADO 80302

TAXIMETRICS LABORATORY
DEPARTMENT OF BIOLOGY
ARMORY 101

PHONE: 303-443-2211
Ext. 6712

26 November 1968

Dr. Sam Dietz has recommended that I send to you the enclosed descriptions of TAXIR, a computerized information retrieval system. I send you this material so that you may have an opportunity to become acquainted with the nature of the system developed in our laboratory. I had the occasion recently to visit Dr. Dietz in Pullman, and discovered that there were potentials for applying our system to the wealth of data now residing in the various stations of the New Crops Research Branch. I hope that you will understand that the papers which I have enclosed here are not a complete description of TAXIR but they do give you some chance to find what facilities to exist in the system.

I look forward to the opportunity of presenting a more complete description of this information retrieval system on Thursday morning, December 12, in Beltsville, where Dr. Dietz has kindly invited me to meet with you. Please feel free to ask any questions that come to mind in advance of the meeting.

Sincerely yours,

David J. Rogers
Professor of Biology

DJR:gm

27 November 1968

Dr. Frank Blair, Chairman
U. S. Committee for IBP
National Research Council
2101 Constitution Avenue
Washington, D. C. 20418

Dear Frank;

I expect to be in Washington the week of the 9th - 13th of December and would like a chance to tell you about some of our ideas for information retrieval and its relationship to various IBP program in this country and abroad. Unless you have some "thing" about Friday the 13th that day would be best for me. Please let me know if this day is convenient.

Sincerely,

David J. Rogers
Professor of Biology

DJR:gm

27 November 1968

Dr. Howard S. Irwin
The New York Botanical Garden
Bronx Park
Bronx, New York 10458

Dear Howard:

I am hoping to spend Saturday and Sunday, December 14th and 15th in New York. Could I nick a piece of your time on either day to talk about information retrieval activities? Sorry I have to ask for a weekend, but I am trying to wrap up as much as I can on the East Coast in one trip and that seems to be the best time for me to make it. I am also writing to Bill in hopes that he will want to join us. Please let me know if you can arrange it.

Sincerely,

David J. Rogers
Professor of Biology

DJR:gm

27 December 1968

Dr. Gilbert Daniels
Hunt Botanical Library
Carnegie-Mellon University
Schenley Park
Pittsburgh, Penna. 15200

Dear Gil:

My schedule for arriving in Pittsburgh is via TWA 131, arriving 6:00 PM on December 15th. I suppose it will take me about 45 minutes to make it from the airport to the hotel. I'll call you as soon as the plane lets me off to see what arrangements we can make for a Sunday evening chat. I plan to leave Monday afternoon at 5:50..

Looking forward to seeing you and your operation there.

Sincerely,

David J. Rogers
Professor of Biology

THE NEW YORK BOTANICAL GARDEN
BRONX • NEW YORK 10458  212/933-9400

December 3, 1968

Dr. David J. Rogers
Department of Biology
University of Colorado
Boulder, Colorado 80302

Dear Dave:

Yes, I will be here that weekend and will be glad to see you Saturday morning, the 14th. I'm sorry I didn't know about your plans earlier, for we would have like to have you out to Croton, however, there will be an unknown number of teenagers in for a sleepover party on one floor, Marian's parents on another, and a contractor busy with construction on the ground floor (my parents are coming East to live here next year sometime). So we had better have our get-together here in my office on Saturday morning. Any idea on time? As you know, Bill will not be able to make it, but a couple of others may want to hear what you have to say.

Cordially,

Howard S. Irwin
Head Curator

HSI:mi

THE NEW YORK BOTANICAL GARDEN

December 2, 1968

Dr. David J. Rogers
Professor of Biology
Taximetrics Laboratory
Armory 101
University of Colorado
Boulder, Colorado 80302

Dear Dave:

In response to your letter of November 27th, I must tell you that I will be in Washington the very two days that you will be in New York, namely, December 14 and 15. We are having the last meeting (I hope!) of SATCOM and will be going over the final report in draft at that time. Normally, as you know, I am in the office on Saturday (as I am as I dictate this), but once in awhile some eager beaver calls a weekend meeting, and the National Academy is one of the worst offenders in the country in this respect-- they have been known to call meetings on Thanksgiving Day! So, I will be terribly sorry to miss you, unless you decide to come at some other time.

Sincerely yours,

William C. Steere
