The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized item.

Usage guidelines

We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

Statement on harmful and offensive content

The Hunt Institute Archives contains hundreds of thousands of pages of historical content, writing and images, created by thousands of individuals connected to the botanical sciences. Due to the wide range of time and social context in which these materials were created, some of the collections contain material that reflect outdated, biased, offensive and possibly violent views, opinions and actions. The Hunt Institute for Botanical Documentation does not endorse the views expressed in these materials, which are inconsistent with our dedication to creating an inclusive, accessible and anti-discriminatory research environment. Archival records are historical documents, and the Hunt Institute keeps such records unaltered to maintain their integrity and to foster accountability for the actions and views of the collections' creators.

Many of the historical collections in the Hunt Institute Archives contain personal correspondence, notes, recollections and opinions, which may contain language, ideas or stereotypes that are offensive or harmful to others. These collections are maintained as records of the individuals involved and do not reflect the views or values of the Hunt Institute for Botanical Documentation or those of Carnegie Mellon University.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

Henning, Minn.,

Mr. Rich Lucas,
Horticultural Specialist,
Mountain View, Mo.

Dear Mr. Lucas: Your very kind letter dated December 15th is to hand and in reply beg to say that according to our records your former letter was duly acknowledged, and it must have been lost in the mails.

You have been nominated a Fellow of the Society and the blanks are sent herewith subject to your acceptance.

For your information an advertising rate card is sent herewith and also a copy of the National Horticultural Magazine. The next issue will be out in a week or so.

Thanking you many times for your kindly interest in the Society, and wishing you the compliments of the season, I remain,
sincerely yours,

RICH LUCAS
HORTICULTURAL SPECIALIST
MEMBER MISSOURI FARMERS ASSN.
MOUNTAIN VIEW
MISSOURI

Mountain View, Mo., December 15th, 1923.

National Horticultural Magazine,
Henning, Minn.

Dear Sir:-

Some time ago I wrote asking if you would send me a specimen copy of your magazine as well as its subscription price, but to date I have not heard from you. As I am especially interested in horticultural work, I would greatly appreciate if you would mail me a sample copy of your journal so that I can see whether it will fit into my requirements, in which case I wish to subscribe.

Sincerely yours,

Rich Lucas.

THE FLOWER GROWER

For all who grow flowers

ESTABLISHED 1914

MADISON COOPER, Editor & Publisher, CALCIUM, N.Y.

Subscription Price
Three years \$3.50
One year \$1.50
Single copy 20¢

Your subscription expired with DECEMBER. This notice is sent so you may remit promptly and not miss any issues. It is necessarily our positive rule to discontinue at expiration. Government regulations require it.

You know what **THE FLOWER GROWER** is, so it is not necessary for me to tell you its many good qualities, but I will suggest that it is giving twice as much in floral facts and information in each issue as any other magazine that was ever printed.

See that your name and address are correct on the other side of this card, attach your remittance, (check, currency, draft, money order, or stamps), \$3.50 for three years, or \$1.50 for one year and mail it today, to avoid break in your files.

MADISON COOPER, *Publisher*, Calcium, N.Y.

P. S.—Luther Burbank, the highest authority, says of **THE FLOWER GROWER**:
"I know of no other horticultural magazine published anywhere which is so thoroughly practical, so well edited and so generally interesting as the one which you publish."

With best
wishes for a
Merry Christmas
and a happy pros-
perous New Year.

Don't think I don't appreciate
your baby shippers, because I

Mr. Hamilton Traub,
Sec. N.H.S. St. Paul
Minn.

Dear Mr. Traub,

I have opined in regard to the proposed amendment to Sec. 3 Article IV. of the By-Laws of the National Horticultural Society.

While I have not been furnished with a copy of the By-Laws and so am not familiar with the original, I would not favor the proposed amendment as it apparently opens the way for the filling of a large unwieldy and expensive board of Trustees. I do not believe that it is necessary nor wise to fill the entire quota of twenty-five members now nor in the immediate future.

My experience in serving on various boards has taught me that a board of three can

usually function better than a
board of five, and that sometimes
one man, provided he is a good one,
can function more efficiently than
three.

While I cannot be present
at the meeting, kindly consider
me as opposing the proposed
amendment.

Sincerely yours,
A. J. S. J. J.

A LOAN ORGANIZATION FOR TEACHERS

We loan money to teachers in any part of the country in amounts from \$50 up, to be paid back in twelve monthly installments. Reasonable interest charges. All business is transacted by mail and is strictly confidential. Our system of loaning is endorsed by prominent educators. Write for complete information.

Address all communications to
TEACHERS' NATIONAL LOAN ORGANIZATION
146-48 Odeon Building, St. Louis, Mo.

NOTICE

Through special arrangement, we have agreed to co-operate with the **TEACHERS' NATIONAL LOAN ORGANIZATION** in bringing their organization to the attention of teachers throughout the United States. In doing this, we want it understood that the loan organization is in no sense a part of The Specialists' Educational Bureau. Numerous emergency cases are brought to our attention each year where teachers might very wisely borrow money with which to pay traveling or moving expenses, summer school expenses, and for other useful purposes. The managers of this Bureau are, therefore, glad to give publicity to an organization that provides a place where worthy teachers may secure needed temporary financial assistance.

THE SPECIALISTS' EDUCATIONAL BUREAU

THE S. A. F. AND O. H. ANNUAL

THE OFFICIAL YEAR BOOK
of the
SOCIETY OF AMERICAN FLORISTS
AND
ORNAMENTAL HORTICULTURISTS

ALL CORRESPONDENCE IN RELATION TO THIS YEAR BOOK SHOULD BE ADDRESSED TO THE PUBLISHERS
A. T. DELA MARE COMPANY, INC. 448 WEST 37TH STREET, NEW YORK, N. Y.

December 1, 1923.

This Annual Is

a yearly record of the progress and accomplishment of American horticulture and an up-to-date directory and reference book of practical information covering all phases of the industry. Each volume contains an official summary of the year's work of the S.A.F. and O. H.

It Is Published

by authorization of the S. A. F. and O. H. at its thirty-eighth Annual Convention, Kansas City, August, 1922.

It Is Designed

constantly to serve—

- Florists
- Growers
- Seedsmen
- Nurserymen
- Wholesalers
- Retailers
- Allied Industries
- Gardeners
- Teachers
- Investigators
- Advanced Amateurs

A special feature of the current edition is the "Blue List" Horticultural Trade Directory—"for all who buy or sell horticultural goods."

Every S.A.F. and O.H. member in good standing as of Dec. 31, receives a copy of the current issue without charge. Price to others on application.

To the Secretary:

One of the most interesting and useful features of the 1922-1923 ANNUAL was the directory of horticultural organizations. In the forthcoming issue of the ANNUAL we want this feature to be even bigger, more complete and more accurate, for the sake both of the horticultural industry as a whole - which is in constant need of such data in convenient form - and that of the organizations themselves, which can be considerably benefited by the publication of this sort of accurate, official information.

We are therefore sending copies of the enclosed questionnaire to more than 250 organizations - national, State, and local - with the urgent request that they be filled in and returned in the accompanying stamped envelopes on or before December 15.

Even if your organization is to hold an annual meeting soon after that date, please don't hold the sheet, but send it in as requested, advising us of the date of the scheduled meeting and sending a revised list of newly elected officers as soon as possible. In giving names of officers, etc., please either print these in ink or use a typewriter, in order to lessen the chance of our spelling them wrong in the ANNUAL.

Hoping that we may have your cooperation, we are

Very truly yours,

THE S. A. F. and O. H. ANNUAL

E. F. D. Seymour
Editor.

P.S. Just as a favor, please don't "put this off", even for a day or two. One questionnaire, one day late, isn't so bad - but when there are 200 or more to be tabulated, besides half a hundred other jobs waiting to be done, every hour that you save us by prompt response to our request is a Godsend.

Resolved, that the Committee on Rules be instructed to draft an amendment to the By-Laws of the Society providing for the striking out of the words under Section 3, Article IV, and the substitution of the following passage: "At any regular or special meeting of the Board of Trustees the full quota of twenty-five trustees, or any fraction of the unfilled quota, may be filled by a majority vote of the members present."

And, be it further resolved, that said Committee on Rules be instructed to report said drafted amendment to the Secretary thirty days after the date of this meeting.

Resolved, that Mrs. Louise Beebe Wilder, of Bronxville, N. Y., be elected an Honorary Fellow of the Society in recognition of her splendid achievements in ~~the field of horticulture~~ popularizing horticulture through the medium of her literary art.

Resolved, that Mrs. Louise Beebe Wilder, of Bronxville, N. Y., be awarded ^{the} 1923 ~~the~~ Medal of The National Horticultural Society of America in recognition of the publication of _____.

~~Resolved, that Mr. Peter Swenson, Caddo, Texas, be elected Regional Vice President of the Society for the Southwest Midland for 1924.~~

Resolved, that the Society create a National American Horticultural Council upon the following basis: (1) the Trustees of the Society; the Regional Vice Presidents of the Society; and the Presidents of all affiliated Societies, to be ex-officio members of the National American Horticultural Council; (2) The officers of the ~~National Hort. Society~~ National Hort. Society to be ex-officio the executive officers of the Council; (3) The Executive Committee ~~of the National Society~~ of the National Society to be ex-officio the executive committee of the Council; (4) the headquarters of the council to be located at the headquarters of the National Society; (5) the official organ of the Natl Hort Soc. to be the official organ of the council#.

Resolved, that ^{the} ~~the~~ Committee on Rules be instructed to draft an amendment to the By-Laws providing for the election of Regional V-Presidents by the fellows of the Society resident in the ~~the~~ respective Regional Districts at the Annual National Hort Soc. ~~in each respective Regional District.~~

Resolved, that Seay be instructed to codify the resolutions passed by the Board since ~~1922~~ July 10, 1922 and that the code be presented at the annual meeting.

Proposed
Amendment to the By-Laws of the National
Horticultural Society

Resolved, that the words under Section 3, Article, IV. By-Laws of the Society be stricken out, and that the following passage be substituted: " At any regular or special meeting of the Board of Trustees the full quota of twenty-five trustees, or any fraction of the unfilled quota, may be filled by a majority vote of the members present."

ANNOUNCEMENT

With January, 1924, we cease to include a subscription to The Flower Grower as part of the Annual Dues, it may, however, be ordered thru the Secretary at the reduced rate of \$1.00 to our members.

In the past year one-third of our receipts has been expended for The Flower Grower with its one to two pages each month of Iris news of current interest. While the magazine publishes much else of general interest it has seemed to the directors that the members of the Society would receive a more direct benefit by the publication of Bulletins at more frequent intervals. Numbers 8 and 9 have been much delayed in press but we hope to forward Number 10 and a new Membership list in January and to follow these by at least three other Bulletins in 1924. Our membership for 1923 showed a gratifying increase in numbers and in interest and we trust that this new policy will meet with your approval.

A list of members is necessary but often proves of little value to individuals and it has been suggested that to incorporate information concerning gardens or nurseries that might be visited by other members would add greatly to the advantage of the Society. I append, therefore, a questionnaire to be filled out, if you so desire, with the necessary information. It should be thoroly understood that such an open invitation is extended only to members of the American Iris Society and such friends as may be in their party. The invitation entails no personal reception on the part of the owner and its acceptance implies that the visitor will be satisfied to see the garden at such hours and in such a way as the owner may specify. Garden visitors are a real pleasure and I hope that the inception of this plan will prove of mutual benefit.

Please remember in answering the questionnaire that many members know very few irises or gardens and that small gardens and small collections are of great interest to many. If you like to visit gardens, return the favor by allowing others to see yours.

The Flower Grower

Mr. Hamilton Traub has donated to the National Horticultural Library several volumes of The Flower Grower, a delightful, refreshing and most instructive periodical of especial interest to all horticulturists, and which is currently issued by Mr. Madison Cooper, C. F. E. H. S., ~~and~~
~~Colum, D. C.~~

National Horticultural Society

OFFICE OF THE VICE PRESIDENT

GRAND FORKS, N. D.

Nov. 28, 1923.

Mr. Hamilton Traub, Secretary
National Horticultural Society,
St. Paul, Minn.

Dear Mr. Traub:-

We are returning the manuscript for the magazine with corrections. They have only one instructor in the Botany Dept. so Prof. Baird is Prof. of Botany or of the Biology Department whichever you choose to express it.

You gave Mr. Keator and Prof. Baird as Charter Fellows. If our Charter closed July first they are not charter members as they joined since that date.

I do not know if I requested the return of Mr. Lawler's letter but please return same.

I think it will be fine to give the N. D. Horticultural Society just such mention as you have in the manuscript. They have not sent any more information so we could not give more.

I am enclosing a notice of the organization of the Rhylon society at the U. N. D. You may use some of this or not just as you choose. I think perhaps it might be of interest to show what is being done and can be done along that line in Universities and colleges and be an inspiration to others to do likewise. If you use it I think it might be well to add a short comment of praise. I think this would be very appropriate to put under your new Regional Activity column. What do you think about it? I think it might be an incentive to students of the U. to join our society if this is printed also.

Thank you for calling my attention to the mistake in filling out the Nomination blanks. I shall not err again. My mistake arose from the fact that the blanks are incorrectly worded if they are to be filled in the way you suggest. It is incorrect to say "I hereby apply for fellowship" and then sign in the end as a "Nominating Fellow." Either sending in their money with the application blank makes them fellows in which case it should be "I hereby accept fellowship" or they are not yet entitled to sign themselves "fellows" and it should be signed at the bottom by the "applicant for fellowship." However it will be better to fill as you suggest and the mistake in wording can be corrected when the next blanks are printed.

Sincerely,

Dec. 10, 1923

At the call of the President, a special meeting of the Board of Trustees of the National Horticultural Society will be held at the headquarters of the Society at Henning, Minn., on December 21, 1923 to consider any business that may properly come before the meeting.

Dec. 10, 1923

At the call of the President, a special meeting of the Board of Trustees of the National Horticultural Society will be held at the headquarters of the Society at Henning, Minn., on December 21, 1923 to consider any business that may properly come before the meeting.

Chapter No 1 The Grand Forks, N. D. is doing splendid work
and I have had the pleasure of attending most of its meetings
and ~~if~~^{all} you fellows only knew how pleasurable these meetings
really are you would get very busy and have a local in your own
locality - Its easy and it is pleasant. To demonstrate this I will tell
you how we did it. The first step was the desire - the second the
getting enough members to get our charter - This at first was not so
easy for people somehow had the idea that to be a mem. of an H.
society they must first know a lot about horticulture - but once
we had impressed them with the idea that that was not at all
necessisary ^{but} instead it was where you went to learn. Then they
jumped to the other conclusion and that oh if I have got to
study I dont believe I have the time for I just have all I can do
right now. but after they had attended or talked to those who
had attended a couple of the out door meetings they decided that
it was a very pleasant place to be for these meetings took the
form of picnics - The ^{idea} holding of same chores to give the best
opportunity to study by actual observation. The organization
meeting was held at the home of the R. V. P. this in its self was a
great treat for it stands in what has the distinction of being the ~~the~~
best kept grounds in S. F. and I really think we might truthfully
say the whole North Midland region for I cannot see how any
grounds could exceed them so velvety & smooth the lawns and no
weed is ever allowed to grow larger than to be identified as such

The second meeting was held at the Heath home and as the Heath
collection of shrubs & hardy flowering plants is the largest in the state
and the grounds are planned to give a naturalistic effect there was
ample opp. to learn more of how and what the various ~~plants~~ flowers and
shrubs look like in this one afternoon than by weeks of study of the
Catalogs - The 3rd meeting was at the E. L. Moulton home and this home
furnishes ~~the~~ an excellent opportunity of seeing what may be accomp-
lished in a very short time as it is wonderful what Mr M. has done
in the way of protective planting in a very few years of ~~time~~ them
too this home is located in one of N. D. most beautiful wild flower tracts
of land. And the ~~the~~ dishes were also located among some of Mrs M.
famous Ice cream & Cake. Think you any of you that that

The National Horticultural Society of America

The object of the THE NATIONAL HORTICULTURAL SOCIETY OF AMERICA is "the increase and diffusion of horticultural knowledge and the stimulation of universal interest in horticulture;" the Society is entirely altruistic and educational in nature, and its scope covers the entire field of horticulture: ornamental gardening, including landscape gardening; amateur flower gardening; professional flower gardening or floriculture; vegetable gardening with special emphasis on the kitchen garden; fruit raising with special emphasis on the home orchard, and all activities allied with horticulture. The Society co-operates in a helpful way with all other horticultural agencies in the field, and serves as a central clearing house for horticultural knowledge in America.

In order to carry out its policy of popularizing horticulture, the Society publishes its journal, THE NATIONAL HORTICULTURAL MAGAZINE, (Number 1, Volume 1, published in August, 1922), which is sent to all Fellows of the Society. As soon as practicable, the Society will publish THE AMERICAN NATIONAL HORTICULTURAL YEAR BOOK (THE AMERICAN NATIONAL HORTICULTURAL ANNUAL); THE AMERICAN NATIONAL PRONOUNCING DICTIONARY OF HORTICULTURAL PLANT NAMES; THE AMERICAN NATIONAL HORTICULTURAL COLOR CHART; practical texts on gardening for each of the climatic regions of the continent, and many other valuable works on horticultural subjects. A beginning will be made to standardize plant nomenclature in co-operation with other organizations; books, herbarium specimens, relics, portraits, etc., are being accumulated for THE AMERICAN NATIONAL HORTICULTURAL LIBRARY, HERBARIUM, AND MUSEUM; an AMERICAN NATIONAL BOTANICAL GARDEN and test garden will be sponsored in each of the regional districts; provision will be made for the stimulation of school gardening, the proper functioning of local horticultural societies, national chapters for the specialized study of horticultural subjects, local, regional and national horticultural (flower, fruit, and vegetable) exhibitions, horticultural scholarships and many other worth while activities. The Society links together in one great family the gardening enthusiasts of America.

The program of the Society will be gradually put into practice as funds become available and as opportunity for service offers. The benefits of a Fellowship in the Society are worth many times the annual dues, and in joining the Society you are helping to give gardening activities the proper emphasis in American civilization. All who are interested in horticulture are eligible to fellowship on the nomination of a Fellow of the Society.

CLASSES OF FELLOWS

FELLOWS (F. N. H. S.) Persons interested in horticulture who shall pay annual dues: \$1.00 in U. S.; P. I., and Canada; foreign \$2.00; dues include subscription to THE NATIONAL HORTICULTURAL MAGAZINE.

LIFE FELLOWS (L. F. N. H. S.) Persons interested in horticulture who have commuted annual dues by the payment at one time of \$100.

PATRON FELLOWS (P. F. N. H. S.) Persons interested in horticulture who have contributed \$500 or more to the objects of the Society; they shall be entitled to all the privileges of fellowship for life.

CHARTER FELLOWS (C. F. N. H. S.) Persons who were admitted to fellowship between July 1, 1922 and June 30, 1923, both dates inclusive.

HONORARY FELLOWS (H. F. N. S.) Persons who have made valuable contributions to horticultural progress may be elected to Honorary Fellowship.

Forward this application and nominations to the Secretary of the Society, Mr. Hamilton Traub, Henning, Minn.

Grand Ledge, Mich.
Dec 4, 1923.

Dear friend Paul:

Received both of your letters and they sure was very welcome to me. But having been so busy lately as I'm or rather to say, we are now a Michigan Farmer. We bought a small farm of 60 acres. We raise all kinds of fruit here, such as Apples, pears, peaches, plums, cherries, grapes and in fact everything but bananas. "Yes we have no bananas today", he. he. This is very nice country and the winters here are mild compared to Minn. that is to say in Ottertail County. We sure have a dandy little farm all tilled no waste land at all. Our

Mr. H. P. Traub
1480 Raymond Ave.,
St. Paul,
Minn.

anyway. This will be our home for years to come if no misfortune, such as sickness or death, to break up our lives. But I hope nothing like that, will happen to us, for the many happy years to come.

You ~~you~~ may change my address in Society's records whenever convenient to you.

You will have to call the meeting and decide whatever business that may come up. Hope you will send me report of that meeting afterwards. Well, as for I must close for this time and I want to thank you very kindly for your welcome letters. Remain in hope of hearing from you soon

Your very sincerely
Axel W. Tervola
R#4.

nearest market town is Grand, Sedge a factory town with a population between 4 & 5,000. Lansing, the capital city of Michigan is only 12 miles from our farm. The roads in this locality, are real good. Lots of paved roads here.

You better come and pay us a visit. sometimes Paul,? You'll find a royal welcome waiting for you in our happy little home.

No I did ^{not} know that Eric Magnusson is in Mich., although Cyrus Barker wrote that they had auction sale and were planing to go to Calif. with his mother. Well they must of changed their plans then, as Eric is in our state.

No, I don't think I'll be coming home for Xmas. Not for sometime

Box 464
Camp 3

L'Anse Mich.
Dec. 4-23

Dear Paul:

I rec'd your kind letter yesterday, and was glad to hear from you.

Have been going to write you ever since I got out here, but kept putting it off because it was so inconvenient to do any writing out here.

I am railroading out here, and staying at a camp 5 miles from L'Anse. It isn't the best kind of a job, but the best I could

get at this time, as good jobs seems to be awful scarce at this time.

I run a gasoline engine, pumping water for a steam shovel and two locomotives. it isn't such a bad job at that only a little cold in cold weather, but so far the weather here has been real nice, and no snow.

Ford is building this railroad (30 miles) out to some timber land he has out here. He also has a

big sawmill in town, which
is running night & day.

I can't say that I like
this country very well, as
much as I have seen of it,
it is awful wet and muddy,
something like Northern
Minnesota. There is some
big timber here, but as far
out as I have been it has
been logged over. There is
mostly hemlock and maple
timber here.

Yes, I expect to be at
Hanning Xmas. I think

I will leave here about
the 15th, if not sooner.

I kind of think I will
go back by the way of
Minneapolis, and if I do,
and have time, I will call
on you.

No, I don't figure on
locating in Mich. perman-
ently. I just came out here
as it seemed to be the only
place a person can get work
at a fair pay, as Ford seems
to be the only one doing any
thing at this time.

I don't know what I will do after Xmas. I would like to stay in Minneapolis if I could get a good job. Maybe next summer there will be a better chance to get in on something.

Yes, I would like to resign the Treasury ship of the U. H. S. to Mrs. Hayes or somebody, as it is impossible for me to look after it when I am moving around like this. I suppose that can be fixed up at Xmas when

I am at Henning, as I
 haven't any of the records
 with me. If I remember
 right there was only \$1⁹⁰
 in the treasury.

Charlie Amdal from
 Henning is here with me.
 He makes a pretty good
 gardener.

I will be at Henning
 or Clitherall from the 20th
 to New Years anyway, so
 if you want to arrange a
 meeting I can be present.
 Would be glad to hear from
 you again. With best regards
 E. B. Magnuson

Dec. 15, 1923

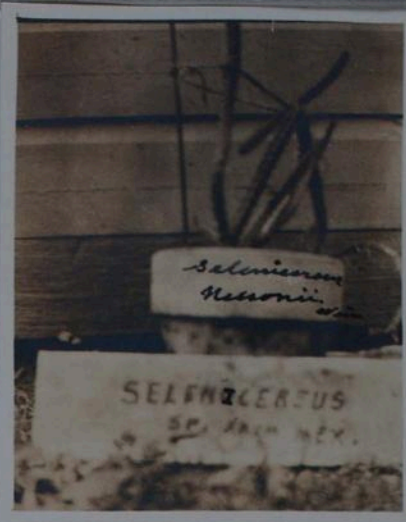

Dear Axel:

I dont know as to whether or not you wish to remain as an active trustee of the Society. No matter what action you ~~wagytake~~ take in this matter you will always remain a Past President of the Society, and a Charter Fellow, but the fact is that we need as many new trustees that we can get in order to move the headquarters to Minneapelis. The quota for 1923 is already filled, and only two new ones may be elected in 1924. In case you should consider it no longer advisable to remain a active trustee, then it would help out greatly if you would send in a written resignation so that we can put an active trustee on in your place. This should be written on a separate sheet so that it can be preserved in the records of the Society. Of course, it is entirely your privilege to remain as a trustee if you so desire and we will be glad to have you. Eric is also leaving Henning for good, and he wants to resign as soon as we can get a new treasurer to take his place. I am sure you will understand the reason for this suggestion.

I am, of course, very buáy and do not get much time to go courting, but when I get away, from school, then look out. I may not remain single during my entire life.

With best wishes,

sincerely,

Galesburg Ill Oct 1-1923
534 Hawkinson ave

Hamilton Tramb
57 Paul Minn

My dear Mr Tramb: Miss Lechase really should be the 15th member on the charter, but Mrs. Stagg is one of our most active members and as their applications were received at the same time I would suggest that we favor her. I therefore enter her as our 15th member. In regard to the specimens of *Leomphitor*. I will like to have the mounted specimens returned as some are collected in localities that I may not collect again. But there is no hurry about them as I may not find time to replace them this winter.

I am returning the copy on the Galesburg local with the one correction in Mr. Pillsbury's middle initial and notation on the meeting of Oct 30. I believe that it would be best to postpone the publication of the *Castro* until next issue. I think the monograph is off the press. It is in a recent letter from Mr. Rose he made no mention of it, as you mention; Mr. Rose's good will may be of value to us in the near future. In fact he wrote some time ago that take it up with some of the horticulturists in the department of agriculture to have them become members. I am returning the photograph of *Schizocercus Nelsonii* as I intended it for our national collection. I do not know if mentioned part of my conversation with Mr. King. He suggested that we get Oscar Keller as a member. He would speak to Mr. Keller himself but his health was poor and he was only in Washington during the hearing on the slaughterhouse impoundment resolution. Mr. King did not know if Mr. Keller's health would be so that he would be in Washington at the opening of congress or not. Mr. King and Mr. Keller are close friends and believed that by the efforts of both that they may secure recognition of us by the committee on agriculture. If Mr. Keller is still in Minneapolis, I believe that it would be well for you to see him and inform him Mr. King would like to have him with us. I have been urging our members to form locals also. It will not be necessary to await until they have fifteen for the charter. Five or six can begin informal public meetings. I do not know how Grand Forks is fixed for program material, but Galesburg has seven splendid papers, five of these are illustrated and will be loaned to other locals on their request. With good programs the locals would have a continual growth. But it seems as if some of our members think that they must have 15 members before they start. I am expecting however its receipt soon that Sumner Wash, Scribble Creek, Colo, Sandiego, Calif and Fox Lake have been organized.

Yours eternally
L. J. Nelson

*The North Dakota State
Horticultural Society*

Organized Sept. 7, 1923.

President, E. C. Hilborn, Valley City.
Vice President, Geo. Will, Bismarck.
Secretary, A. F. Yeager, Agric'l College.
Treasurer, C. A. Chisberg, Hankinson.

An organization welcoming to its membership all persons interested in making better homes in North Dakota through:

The growing of trees for shelter.

The planting of trees, shrubs and flowers for ornament.

Establishing plantings of suitable fruits.

An adequate vegetable garden for every home.

Are you interested?

Then Join.

Dues \$1.00 per year.

See back page for premiums.

Mr. David Holt, Editor,
Mobile Mobilizer, Box. 1489,
Mobile, Alabama.

Dear Mr. Holt:

I have your very kind letter regarding an article on the "Alabama Satsuma Industry", and in reply beg to say that the articles in the National Horticultural Magazine at the present time are contributed by Fellows of the Society, and are not paid for. Later the Society hopes to adopt a policy of paying for all contributions, and this policy will be adopted as soon as practicable.

If you should care to send in an article under the above conditions the editor will be pleased to consider the same.

At the present time the State of Alabama is not represented among the Fellows of the Society, and I take pleasure in nominating you for fellowship in the Society.

Thanking you many times for your kindly interest in the Society, I remain, with very kind regards,

sincerely yours,

MOBILE, ALABAMA, NOVEMBER 28th, 1923

No. 1

Orange Growing Industry Attracts Attention To Alabama Coast Counties

Satsuma oranges are going out from Mobile and Baldwin county orchards as rapidly as skilled pickers, graders and packers can prepare them for the market. By Christmas Day the crop will have been harvested and sold. If present prices hold, it will bring more than a million dollars to the growers.

On the big auction markets, such as New York, Chicago, Detroit and Denver, the average price paid by the buyers for the fruit is approximately \$3.50 per half-strap box, according to returns for the three grades received by the two large cooperative shipping exchanges.

Alabama Satsumas are bringing a higher price on these markets than are any of their rivals from other states.

Some of the packing houses on both sides of the bay are working their forces in double shifts. Expert workers in the fruit have been developed at home and there is an annual influx of transient professional packers, gladly welcomed in the present large crop.

Early estimates of 750 carloads will be exceeded, it appears, and the crop will probably reach 800 cars, when all less-car shipments are included in the final total. This will be 250 carloads greater than last year. Owing to climatic reasons, the crop of 1923 is nearly two weeks later than that of the previous year.

With a continuation of reasonably mild weather throughout the winter, it is estimated that the crop of 1924 will exceed 1,500 carloads, as many young orchards will have come into bearing and others will have

increased in productiveness with another year added to their present age. The total estimated value of the citrus orchards in the two coast counties is about \$8,000,000, according to one excellent authority; this including new plantings.

Nothing horticultural could be more beautiful than the best of the Alabama Satsuma orchards at this season, before the pickers come along with their nippers and make room for the next crop by harvesting that which now weighs down the branches of the trees with the golden fruit of the nobility.

Orchards Attract Visitors

Drawn by the beauty of the scene no less than the dreams of wealth it conjures up, many persons from many lands make their pilgrimage to the Alabama Satsuma orchards. The annual tour headed by President M. J. McDermott, of the Farmers and Mechanics Bank, attracted more than 200

of these on the day following Armistice Day. W. H. Reynolds was the guide. The weather was perfect, being neither warm nor chill. Iconoclastic pickers had scarcely touched the gilded ornaments with which Nature had decorated the citrus trees.

Americus Barney Melville, of Los Angeles, California, was one of the 200. The Alabama Satsuma was something new to this retired lawyer and capitalist. He, like the president of the United States, had never considered Alabama as one of the citrus producing states. He was present when Mr. McDermott was presented with a loving cup by Mobile county orange growers and his speech on that occasion sounded clear notes of truth about Alabama and California.

California's climate is all that it's pictured in the advertisements, yet the speaker had never seen in all that state a more beautiful day nor breathed a more balmy air. He has seen all that California has to offer in the way of citrus development; yet he had never beheld more beautiful groves nor eaten more delicious oranges. Mobile county lands in the raw and undeveloped state can be bought for \$50, or even less, per acre and require no irrigation, while California's lands suitable for citrus orchards sell for \$500 per acre, or more, and then must be irrigated with additional expense. This, in brief, was Mr. Melville's comparative observation. He said, also, that the land in the citrus regions of southern California would soon be occupied by residences to such an extent that Alabama would never suffer more than now from that section through the competitive growing of oranges; that Los Angeles is rapidly becoming the greatest residence city the world has ever seen. No, he did not praise Mobile at Los Angeles' expense.

Party from De Ridder

One week later there arrived in Mobile a party of twenty Louisiana men, headed by J. K. Smith, of the De Ridder Chamber of Commerce and Harry D. Wilson, commissioner of agriculture of that state. With them came representatives of the land department, Long-Bell Lumber Company, the mayor of De Ridder, officers of its banks and others prominent in the town's affairs. Monday afternoon they were taken for

Henning, Minn.

My Dear Sir:-

Kindly furnish me with information regarding the National Horticultural Society. The Kansas State Horticultural Society will hold its 57th annual meeting December 4-6, 1923, and I would be pleased to have something regarding the National Horticultural Society.

Respectfully,

O. F. Whitney

Henning, Minn.,

Nov. 15, 1923.

Mr. O. F. Whitney, Secretary,
Kansas State Horticultural Society,
Capitol Building, Topeka, Kansas.
Dear Mr. Whitney:

In reply to your very kind letter dated November 6th., I beg to state that The National Horticultural Society, a scientific organization, national in scope, and entirely altruistic and educational in nature, was organized by a group of amateur horticulturists. The permanent headquarters of the Society will be established in Washington, D. C. as soon as practicable.

For your information, I am sending herewith a copy of the modest official organ of the Society, and a nomination to fellowship in the Society subject to your acceptance.

Thanking you many times for your kindly interest in the Society, I remain,

with very kind regards,
sincerely

Secretary

NOMINATION FOR FELLOWSHIP IN THE NATIONAL HORTICULTURAL SOCIETY OF AMERICA

October 3rd 1923

To the Secretary, National Horticultural Society, Henning, Minn.

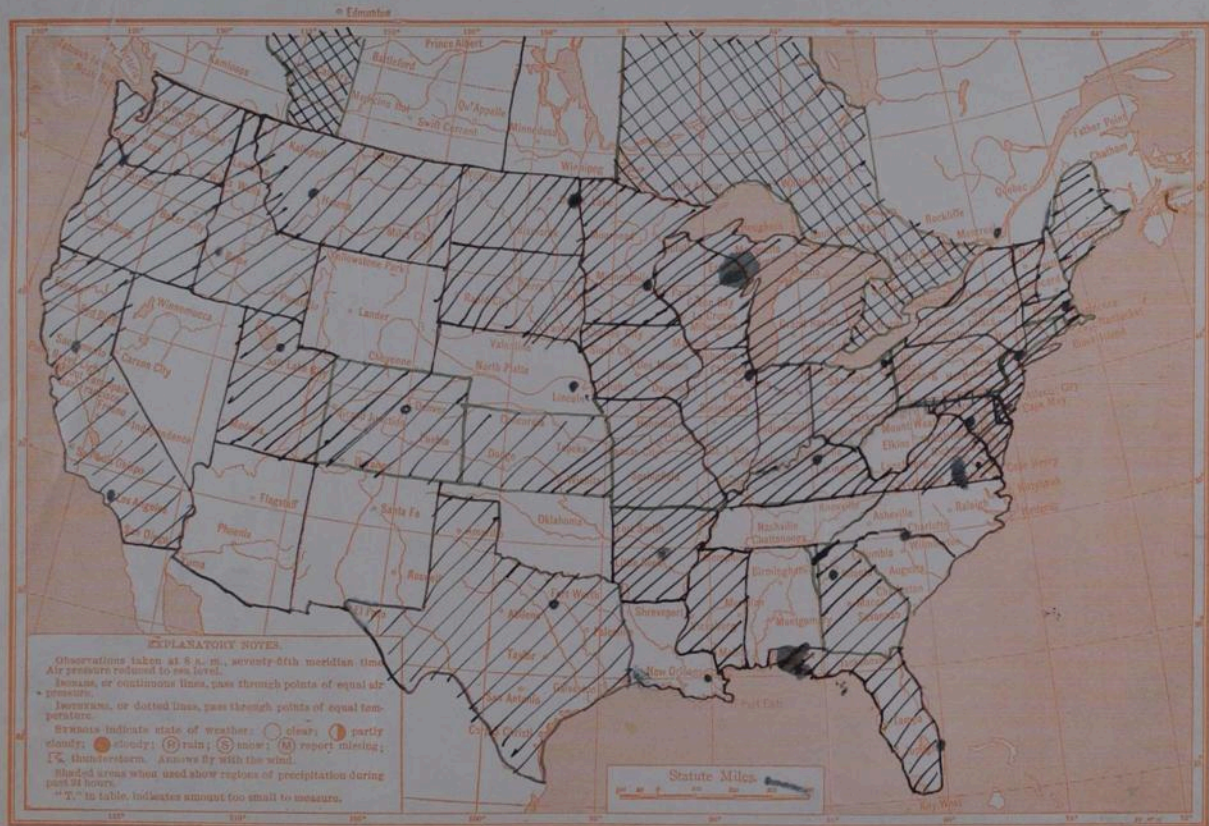

I nominate Mrs. George Fisher
(Print names and addresses of nominees)

Wilmore, Kansas

for Fellowship in the Society.

Jean D. Jansen
(Name and address of nominating Fellow)

Fort Lake Ill

National Horticultural Society

OFFICE OF THE VICE PRESIDENT

GRAND FORKS, N. D.

Nov. 26, 1923.

Mr. Hamilton Traub,
St. Paul, Minn.

Dear Mr. Traub:-

The bill for \$4.85 and the checks and money orders for \$8.15 received. I have also a check received today from Mrs. Nora Wilmore, Bogard, Mo. for membership dues which brings the amount in the treasury to \$9.15. I will accept the position temporarily. If it is for the best interests of the society I am willing to keep it for 1924 but if not I should prefer that some one else take it to scatter the offices more and to give me my time to devote to the membership drive. However if no one suitable turns up I will take it for the next year as I do not feel it will require much effort.

I notice Mrs. Cakden of Enterprise, Utah has joined. Was this on my nomination? I wrote her and sent her magazine by request. This puts two more states on the map, Utah and Mo. Please notify me in your next letter each time a new state is added as I am sending letters out every day (sent seven Sat. and nine today) and want to send only to important people or to those in states where we do not already have members. If you have a couple or more addresses from Nev., N. Mex. and N. Hampshire send them along as I cannot find addresses of people in those states. The letter "E" must be our Nemesis.

In regards to the postage account of Mother and myself, my account prior to today stood as follows

56 letters with two cents postage....	\$1.12
Postage on package...	8
18 letters with four cents postage	72
One letter and extra postage enclosed	18
Total	\$2.10

I will add this to my Treasurer's report. The balance due you Mother wishes to count as postage for herself for letters with two cents postage. Hereafter an itemized bill like the above will be given for all that goes out of the house for postage. How much did you figure was due you from the House of Heath. I have to know to make out my bill from same.

I note you have the Hon. Ruttness' name spelled as Alger. It should be Olger.

Your suggestion as to all members of the local being invited to participate in any trips of the native flora members is well taken

Wyoming
Nevada
C. Z. Nelson, Pres.
New Mexico
Arizona
Nebraska

East } New Hampshire
West Virginia
Eric H. Johnson, Treas.

National Horticultural Society

OFFICE OF THE VICE PRESIDENT
GRAND FORKS, N. D.

Mother and I that the members of the Native Flora Chapter might like to take some flower hunts that would not be of interest to the local chapter as the city people are mostly interested in other lines of Horticulture but all members of the chapter will be invited to join the Chapter or to attend without being a member and we will see to it that there will be no friction between the two branches. In the little towns it would be almost impossible for interesting meetings to be held but there might be a few people who would be interested in Horticulture and the study of the wild flowers. That was why I suggested branches of the Native Flora Chapter in such places. I did not mean they should be granted a charter but just to meet informally. If the charters could be granted to five people in these small towns I think it would be a great benefit. I am sure there are many places that would like to get a few people together and have meetings once or twice a year and a few auto trips during the summer that would never feel equal to having a chapter of fifteen members with regular monthly meetings. I do not know whether it would be feasible to make the number of members required in small towns less than in larger tho it might be possible to say it had not been found desirable in the larger places to try to start with such a small number when there were so many other activities in the city and get around it in that way. We could make all towns under five thousand be able to secure a charter with five members. Or we might say three thousand. I will send the charter to Mrs. Bennett and think it will be just as well to wait till I hear from her again before you write her. I do not want to frighten her out by rushing her.

As for the write up of the N. D. Horticultural Society, I do not see how we can give them a write up with our meager information. I asked Mr. Yeager for the information long ago and he said he would have to write the Pres. to send it and I have written Hilborn three times to no avail so I think the best thing is to just leave it out of this issue. I guess Mr. Hilborn has been too busy with the Nursery to attend to it and will probably do it later. Mr. Truax is trying to get Minot, the third largest city in the state, interested in starting a local.

Does your statement mean that you have not received anything from the Treasurer during the year and that the Society now owes you that much money for your expenses during the year? When will the next trustee meeting be? In February?

Sincerely,
Pearl Sawyer.

The Victory Theatre

Fairfield, Iowa

Nov 26th 23

Mr. Hamilton Traub
1480 Raymond Ave.,
St. Paul, Minn.

Dear Hamilton:

I was very glad to
receive your letter of the 17th and to
know that you are doing fine.

Of course I'll accept your nomination
as a Fellow of the National Horticultural
Society, with in a few days I will return
the nomination blank with the dues.

I am at present working at the
Victory Theatre here and I feel things

The National Horticultural Society of America

The object of the THE NATIONAL HORTICULTURAL SOCIETY OF AMERICA is "the increase and diffusion of horticultural knowledge and the stimulation of universal interest in horticulture;" the Society is entirely altruistic and educational in nature, and its scope covers the entire field of horticulture: ornamental gardening, including landscape gardening; amateur flower gardening; professional flower gardening or floriculture; vegetable gardening with special emphasis on the kitchen garden; fruit raising with special emphasis on the home orchard, and all activities allied with horticulture. The Society co-operates in a helpful way with all other horticultural agencies in the field, and serves as a central clearing house for horticultural knowledge in America.

In order to carry out its policy of popularizing horticulture, the Society publishes its journal, THE NATIONAL HORTICULTURAL MAGAZINE, (Number 1, Volume 1, published in August, 1922), which is sent to all Fellows of the Society. As soon as practicable the Society will publish THE AMERICAN NATIONAL HORTICULTURAL YEAR BOOK (THE AMERICAN NATIONAL HORTICULTURAL ANNUAL); THE AMERICAN NATIONAL PRONOUNCING DICTIONARY OF HORTICULTURAL PLANT NAMES; THE AMERICAN NATIONAL HORTICULTURAL COLOR CHART; practical texts on gardening for each of the climatic regions of the continent, and many other valuable works on horticultural subjects. A beginning will be made to standardize plant nomenclature in co-operation with other organizations; books, herbarium specimens, relics, portraits, etc. are being accumulated for THE AMERICAN NATIONAL HORTICULTURAL LIBRARY, HERBARIUM, AND MUSEUM; an AMERICAN NATIONAL BOTANICAL GARDEN and test garden will be sponsored in each of the regional districts; provision will be made for the stimulation of school gardening, the proper functioning of local horticultural societies, national chapters for the specialized study of horticultural subjects, local, regional and national horticultural (flower, fruit, and vegetable) exhibitions, horticultural scholarships and many other worth while activities. The Society links together in one great family the gardening enthusiasts of America.

The program of the Society will be gradually put into practice as funds become available and as opportunity for service offers. The benefits of a fellowship in the Society are worth many times the annual dues, and in joining the Society you are helping to give gardening activities the proper emphasis in American civilization. All who are interested in horticulture are eligible to fellowship on the nomination of a Fellow of the Society.

CLASSES OF FELLOWS

FELLOWS (F. N. H. S.) Persons interested in horticulture who shall pay annual dues: \$1.00 in U. S.; P. L. and Canada; foreign \$2.00; dues include subscription to THE NATIONAL HORTICULTURAL MAGAZINE.

LIFE FELLOWS (L. F. N. H. S.) Persons interested in horticulture who have contributed annual dues by the payment at one time of \$100.

PATRON FELLOWS (P. F. N. H. S.) Persons interested in horticulture who have contributed \$500 or more to the objects of the Society; they shall be entitled to all the privileges of fellowship for life.

CHARTER FELLOWS (C. F. N. H. S.) Persons who were admitted to fellowship between July 1, 1922 and June 30, 1923, both dates inclusive.

HONORARY FELLOWS (H. F. N. S.) Persons who have made valuable contributions to horticultural progress may be elected to Honorary Fellowship.

Forward this application and nominations to the Secretary of the Society, Mr. Hamilton Traub, Henning, Minn.

In receiving the list from Mr. Pillsbury I find that he did not give the correct name of the last applicant. His name is Samuel Woodsell instead of Samuel Woodfrey. I send the arrangement in rotation as they signed the original list and as they were received later you may arrange them as you see fit.

I also received a letter from Mr. Brewster lately in which he offers his library and scientific collection for life membership. For myself I think that it is a very liberal offer and if you think so, would suggest that write him about it.

Yr. fraternally
L. J. Nelson

My dear Mr. Travis,

I am herewith remitting for five applicants and also sending my own dues which I suppose is about due. Some of the other members presented applicants which were accepted but failed to collect their dues, but I expect to be in position to forward them the early part of the week.

I am also enclosing a clipping from one of our local papers containing a report of our meeting of the 11th inst. I am also corresponding with some of our members in other localities in effort to have them organize locals.

Travelling

W. J. Travis

1480 Raymond Av.,

St. Paul, Minn.,

Nov. 25, 1923

Dear Mr. Nelson:

I have prepared most of the copy for the next issue of the Magazine, and I am sending some of it to you for your suggestions and criticism. I have prepared the description of the thistle just as you sent it and will try to get it into the coming issue of the Magazine if at all possible. Do you think that Dr. Rose's monograph will be out by the middle of December? It seems that we should not publish the reference unless his monograph is off the press since he has requested you to keep the matter confidential ~~up~~ up to that time. We do not want to get in wrong with Dr. Rose. Unless we know for certain that the book is off the press, we should hold up the notice until the ^{Jan} ~~the~~ issue.

I do not have the name of the Treasurer of the Galesburg local.

Mrs. Heath writes that Mrs. Bennett at Tillamook is doing her best to organize a local at the present time. I hope we receive the notice of its completion so that we can make a very short announcement in the next issue.

Kindly return the copy at your very earliest convenience so that I can turn it over to the printer.

Sincerely

The National Horticultural Society of America

Nov. 16, 1923

Dear brother John:

Your very kind letter received, and was very glad to hear from you.

Of all the out of the way places, the Iron Range of Michigan was about the last place that I thought the two would pick out. What ails these men? Why dont they write a few lines at least? If you should find out their addresses will you kindly let me know at once so that I can write to them.

To all apparances, the two societies will be united by January next, and the headquarters will then be at Washington, D. C. The trustees will have to hold one or two meetings at Henning however to wind up affairs there. If Tervola or Eric should come home for Xmas a meeting could be held then.

I am sending checks and money orders for \$10.00 that should be deposited to the credit of the Society, and the record sheet inclosed should be kept with Eric's records. A bill due the Syndicate Printing Co., amounting to \$4.85 should also be paid, and in the emergency of the Treasurer's decamping, you had better attend to the duties until Jan. 1, 1924. Will you therefore, write out a check to them and send it, for it has been the policy of the society to pay all bills to outsiders on presentation. I suppose that he has left the Treasurer's papers in the safe so that you can get access to them. He asked me to let him know in whose favor he should resign, and I will designate you as temporary treasurer* to act in his absence.

The 2d class matter has no intrinsic value, but the people who have sent their catalogs expect that they will be reviewed in the Magazine and will feel put out if no notice of their catalogs appear in the Magazine. It is for this reason that it is important that all the 2d class mail be carefully saved.

With best regrds to yourself and all the family, I remain
sincerely

Nov. 10-1922.

Dear Mrs. Paull.

Good to hear that you are getting along nicely, we are all as well as can be expected.

Erick and Tervola have gone to Michigan but I know the address of neither.

There is quite an accumulation of circulars and a few papers and magazines here, but seem that it would ^{not} be worth the postage to send them down there as you have ready access to all that class of stuff in libraries down there, will ^{send} it down with Bill when he comes up again, if he will take it. Times seem to get just a little tougher all the time and don't know where it will end. With best wishes, I am, Yours truly
John F. Traub

Dear Paul:

Herewith financial statement of the National Horticultural Society to November 1st, 1923.

I had to make this out in a hurry, so, there may be a mistake, but I tried to get it correct.

I am leaving for L'Anse, Michigan tomorrow, I think I will be able to get work there. If I can't I will have to go some other place.

Am in a hurry to night, but will write you more later.

Sincerely yours

E. B. Magnusson

Crosby, N.D., Nov. 18th 1923.

Mrs. Fannie Susanna Heath,
Grand Forks,
N.D.

Dear Fata:-

I have yours of the 13th inst. Much as I hate to agree with you I must do so with regard to the greater part of the "minor details".

I believe that a joint committee on nominations is better than the submission of the entire question to the indiscriminate voting of members. Neither do I believe in filling the entire board of trustees now. If I had my way I would keep the number of trustees down to as low a figure as possible both now and in the future. Multiplicity of counsel always makes for confusion. My experience on boards of various kinds has always been that a board of three can function better than a board of five and that sometimes one party can function better than three, provided of course that that one is a good one. I also agree with you as to the matter of dues. As to the location of trustees, theoretically I would consider it better to have all parts of the Country represented on the board. Mr. Drawl's objections to proxy voting of course have some weight, but when the amalgamated society gets to going good it should be possible, if the number of trustees is kept where it belongs, to pay them for their time and expenses in attending the meetings of the board. If this were done there would be little doubt as to there being a quorum present at all meetings. A majority vote of the members of the board of trustees should rule. A vote of society members.

Digitized by the Hort. Institute for Botanical Documentation

Democracy is fine but getting things done when they need to be done is finer.

That is about all so far as my views are concerned. I have no objection to Mr. Purdy as trustee but I object to some of his methods of doing business that of course are neither here nor there so far as his qualifications as trustee are concerned. When you sent me *Campanula rapunculoides* you told me that it was a bad spreader and that I should put it where I could control it. I accordingly faithfully dug it out of my *Campanula* bed and transplanted to the north side of a bunch of trees where it could harm nothing. I had been trying for several years to fill that *Campanula* bed and had part of it to *Platycodon* (a near-*Campanula*) and to *C. persicifolia* which I consider very choice. I sent to Palisades Nurseries for *C. latifolia macrantha* which I considered very choice and planted it in that bed. When it bloomed what do you suppose it was? Why, *C. rapunculoides*! I am digging it out of that bed yet to keep it from choking my *C. persicifolia* to death. I thought then that I would take a fresh start on *Campanulas* in another bed and knowing Purdy's reputation I ordered *C. lactiflora* and *Adenophora Communis* which latter he greatly recommended by giving it special place in his catalog as a rare and distinctive Bellflower. When he filled the order he could not furnish *C. lactiflora* but sent instead *C. biennis* which is not hardy here. Of course that was not so bad but when my "rare and distinctive" dozen of *Adenophora Communis* bloomed what do you suppose they were? Why *Campanula rapunculoides* to be sure! Now I have three beds of it. I consider that a nursery man who will

something "rare and distinctive" is either lamentably ignorant or else has no conscience, I might expect Caesar Will to do it, but not Carl Perry. Nearly all the stuff of a good sized shipment was either substituted or worthless and I have accordingly quit him.

Richard is improving. The decayed bone shown by the Estevan X ray proved to be blood clots and congested tissues causing the discoloration. He will not need the Viava now but thank you just the same. I will remember it if anything serious comes up and will return the book as soon as we have finished reading it. All the boy needs now is working the joint to keep it from setting. He walks some with a cane already.

Beautiful weather here just the same as you have. Heartsense recovered from the freeze and blooming in my garden. It is surely constant and lasting and significant of many things.

As ever yours
"Laurie"

The name Laurie is my making from Laureate - as Mr Triax is our Poet Laureate in the Circle 1 letters.

Please return

What a busy happy world this is and sometimes I think I must be the very happiest and busiest person in it. Then some of life's storms strike me and about them I decide I am not so happy after all.

Yet like other storms these soon pass leaving me with just a little more courage to tackle the next one. This closing year has been no exception to the general rule and has yielded a bountiful crop of pleasurable happenings, chief among these was a visit from our Editor, and as I am sure you are all real curious as I was to know just what sort of a fellow he is I will give you a brief little pen picture of him & his call. Early one beautiful Sun forenoon, a high power roadster whirled up our drive stopped at the side drive on the single occupant sprang lightly to the ground and with his head held high, a pleasant smile on his face came straight to where I stood in the yard. You are Mrs Heath he said and I guess you do not know me I am Hamilton Traub. I was much surprised but recovered sufficiently to ask him to be seated in a big rocker on the front lawn, No; not until I have seen your garden. All who possess a garden, cared for by their own hands know the pleasures of showing a real garden lover over their grounds, Thus it was that I soon found myself enjoying the privilege of showing my unexpected guest over the garden for he proved to be a real garden enthusiast and showed so fine an appreciation of every really fine specimen examined that it was

a genuine pleasure to go thru the grounds with him. Then some time was given over to the discussion of the various problems of just what was best for the N. H. S. then luncheon, then more discussions until guests from far and near ^{near by in numbers} took all our time for the remainder of the day. I am always an early riser, the next morning was no exception to this general rule and I was rather surprised to find that my guest was already in the garden and from my vantage point of "seeing without being seen" I watched him, as he went among the flowers now stooping to examine closely the delicate tracings of flower or leaf, again bending to quaff the delicate fragrance of some rare flower, or peering into crowded nook that he might not miss any thing he reminded me most of a huge humming bird for our editor seems to possess the ability to transport himself quickly from place to place without visible motion.

I quickly joined him for I did not wish to waste any of the precious moments that ~~was~~ ^{we were} privileged to have him with us ^{as} and there were still many points to be discussed.

Shortly after breakfast he informed us that he must be on his way. We snapped him as he stood beside his roadster ready for the start, he bowed, smiled, sprang into his car, ~~another~~ a flash and the big ^{red} roadster was gone leaving us all sorry that his stay was so short yet glad that we had been privileged to meet him for ever so short a time.

Fannie Mahood Heath.
