The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized item.

#### *Usage guidelines*

We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

#### *Statement on harmful and offensive content*

The Hunt Institute Archives contains hundreds of thousands of pages of historical content, writing and images, created by thousands of individuals connected to the botanical sciences. Due to the wide range of time and social context in which these materials were created, some of the collections contain material that reflect outdated, biased, offensive and possibly violent views, opinions and actions. The Hunt Institute for Botanical Documentation does not endorse the views expressed in these materials, which are inconsistent with our dedication to creating an inclusive, accessible and anti-discriminatory research environment. Archival records are historical documents, and the Hunt Institute keeps such records unaltered to maintain their integrity and to foster accountability for the actions and views of the collections' creators.

Many of the historical collections in the Hunt Institute Archives contain personal correspondence, notes, recollections and opinions, which may contain language, ideas or stereotypes that are offensive or harmful to others. These collections are maintained as records of the individuals involved and do not reflect the views or values of the Hunt Institute for Botanical Documentation or those of Carnegie Mellon University.

#### *About the Institute*

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

CURRICULUM VITAE

of

BERNARD LOWY

MAILING ADDRESS

Department of Botany  
Louisiana State University  
Baton Rouge, LA 70803

HOME ADDRESS

622 Castle Kirk Dr.  
Baton Rouge, LA 70808  
University phone: (504) 388-8485  
Residence phone: (504) 766-2176

PERSONAL DATA

Birthdate: February 29, 1916. New York, N.Y.  
Social Security No.: 484-32-1517  
See biography in "American Men and Women of Science" 14th ed. 1979.  
vol. IV, p. 3074.

EDUCATION

B.S. - Long Island University, New York, 1938.  
M.S. - University of Iowa, 1949.  
Ph.D.- University of Iowa, 1951.

ACADEMIC POSITIONS

Professor Emeritus of Botany, LSU. 1980.  
Professor of Botany, LSU - 1964 to 1980; Curator, Mycological Herbarium.  
Associate Professor of Botany, LSU - 1959-1963.  
Assistant Professor of Botany, LSU - 1951-1958.  
Fulbright Visiting Professor, Universidad Nacional de Agricultura,  
Lima, Perú - 1958. (6 months)  
Visiting Professor, Universidad Nacional de Tucumán, Argentina -  
1959 (Short Course in Mycology - 3 weeks).  
Visiting Fulbright Professor, Instituto de Botânica, São Paulo,  
Brazil - 1965-1966. (1 year)  
Visiting Fulbright Professor, Universidad Nacional de Piura, Perú -  
1972. (6 months)

MEMBERSHIP IN PROFESSIONAL SOCIETIES

Mycological Society of America  
Sociedad Mexicana de Micología (Honorary Member 1968)  
Botanical Society of America  
The Society for Economic Botany  
The American Bryological and Lichenological Society  
International Association for Plant Taxonomy  
Sigma Xi  
Association of Southeastern Biologists

CHIEF PROFESSIONAL INTERESTS AND ACTIVITIES

Research in neotropical mycology. Taxonomy and phylogeny.  
 A new subclass, 4 new genera, 40 new species, and 5 new varieties  
 or combinations of fungi published in national and foreign  
 journals (through 1980).  
 Ethnomycological research (interdisciplinary) in Mexico and Central  
 America.  
 Founder LSU Mycological Herbarium 1954. Currently about 15,000  
 collections. Types of Tremellales. Area of concentration:  
 Neotropical Tremellales.

CURRENT RESEARCH

Tremellales of West Amazonian Brazil (sponsored by "PROJECTO FLORA  
 AMAZONICA". USA-BRAZIL. 1980.)  
 Tremellales of Tierra del Fuego, Argentina, in association with  
 Consejo Nacional de Investigaciones Científicas y Técnicas de  
 la Argentina.  
 Mycological and ethnomycological papers in preparation, (1981).

PROFESSIONAL CONSULTATION-IDENTIFICATION SERVICES (1960 to present -  
 in part)

The following are among the institutions that have sent fungi  
 to LSU for identification. I have personally visited all these  
 except Lund and Budapest and maintain an active exchange with their  
 curators.

Farlow Herbarium, Harvard University, Cambridge, Mass.  
 Instituto Darwinion, Buenos Aires, Argentina  
 Instituto de Biología, Universidad Nacional de México, México, D.F.  
 Instituto de Botânica, São Paulo, Brasil  
 Instituto Miguel Lillo, Tucumán, Argentina  
 Instituto Politécnico Nacional, México, D.F.  
 Instituto Spegazzini, La Plata, Argentina  
 Kew Gardens, Commonwealth Mycological Institute, London, England  
 Lund Botanical Museum, Sweden  
 Museo Argentino de Ciencias Naturales, Buenos Aires, Argentina  
 Museo de Historia Natural, Lima, Peru  
 Museo Paraense "Emilio Goeldi", Belém, Pará, Brasil  
 Muséum National D'Histoire Naturelle, Paris, France  
 National Fungus Collections, Beltsville, Maryland  
 New York Botanical Garden, New York, N.Y.  
 Természettudományi Muzeum, Budapest, Hungary  
 University of Iowa Herbarium, Iowa City, Iowa

ASSOCIATED PROFESSIONAL ACTIVITIES AND HONORS

Chairman National Foray of Mycological Society of America held in  
 Baton Rouge, LA., 1960.

Member Editorial Board of MYCOLOGIA, national journal of the Mycological Society of America - 5-year term beginning 1972; reappointed for additional 5-year term beginning 1978.  
 Consulting Editor of REVISTA INTERAMERICANA REVIEW, Puerto Rico - 1972 to present.  
 Chairman Ethnomycological Section, II International Mycological Congress, 1977. Tampa, Florida.  
 Referee for mycological papers submitted to SCIENCE and for NSF proposals in Botany. 1965 to present.  
 Elected Honorary Member Sociedad Mexicana de Micología (1968).  
 Numerous talks and seminars on mycology and ethnomycology in U.S. universities and in Latin America.

\*

GRANTS FOR TEACHING/RESEARCH (other than LSU Research Council Grants)

1958 - Fulbright award to Peru (6 months)  
 1962 - American Philosophical Society grant to Mexico (3 months)  
 1963 - Sigma Xi grant for mycological research in Mexico and Guatemala (3 months)  
 1964 - Organization for Tropical Studies (NSF supported)  
 Research Associate, University of Costa Rica, San José (3 months)  
 1965 - Fulbright award to Brazil (1 year). Teaching/Research.  
 1969 - Universidad de Cayetano Heredia, Lima, Perú. Fulbright award to give short course and seminars in mycology (3 weeks)  
 1972 - Fulbright award to Peru (6 months) Teaching/Research  
 1980 - Participant in Proyecto Flora Amazonica, Brasil (Acre) Sept.-Dec. Joint American-Brazilian sponsorship for collection and study of Amazonian fungi.

MYCOLOGICAL RESEARCH ABROAD

Panamá (1950)  
 Bolivia (1958)  
 Perú (1958, 1969, 1972)  
 México (1962, 1963, 1970, 1972, 1974, 1977, 1978)  
 Guatemala (1963, 1970, 1972, 1973, 1974, 1976, 1977, 1978)  
 Costa Rica (1964)  
 Brasil (1965-66, 1980)  
 Argentina (1959, 1966)  
 Puerto Rico, Jamaica, Dominican Republic (1968)  
 El Salvador (1971)  
 Honduras (1973)  
 Extensive field experience in these countries.

FOREIGN LANGUAGE COMPETENCE

Bilingual - English, Spanish  
 Speak competently - Portuguese, Hungarian  
 Reading knowledge - French, German, Italian, Latin

\* Invitational Address. Ethnomycological Section, First National Mycological Congress of Mexico. Xalapa, Mexico. October, 1982.

PUBLICATIONS

A) PAPERS IN JOURNALS

1949. Hysteriales of Iowa. Iowa Acad. Sci. 56: 147-157.
1950. Climacium americanum in Iowa. Bryologist 53: 289-293.
1951. Impressions of life in tropical America. (Barro Colorado, Canal Zone) Turtox News 29. Nos. 1, 2.
1951. New evidence for typification of Auricularia. Mycologia 43: 462-463.
1951. A morphological basis for classifying the species of Auricularia. Mycologia 43: 351-358.
1952. The genus Auricularia. Mycologia 44: 656-692.
1953. Myxomycetes of Louisiana. Mycologia 45: 926-933.
1953. Auricularia in Louisiana. Proc. La. Acad. Sci. 16: 28-30.
1954. A new species of Platygløea in Louisiana. Mycologia 46: 100-104.
1954. A new Dacrymyces. Bull. Torrey Bot. Club 81: 300-303.
1955. Some Louisiana Gasteromycetes. Proc. La. Acad. Sci. 18: 45-53.
1955. Illustrations and keys to the tremellaceous fungi of Louisiana. Lloydia 18: 149-181.
1956. A note of Sirobasidium. Mycologia 48: 324-327.
1957. A new Exidia. Mycologia 49: 899-902.
1958. Anamalous phalloids. Mycologia 50: 792-794.
1958. A method for obtaining soil-free Phycomycetes. Mycologia 50: 142-144.
1958. On preparing fleshy fungi for the herbarium. Mycologia 50: 442-444.
1958. Synopsis of Louisiana polypores. Amer. Midl. Nat. 62: 329-349. (with A. Welden, co-author).
1959. New or noteworthy Tremellales from Bolivia. Mycologia 51: 840-850.
1960. Some Tremellales from Finland, Sydowia, Ann. Mycol. Ser. II, XIV: 104-105.

PUBLICATIONS (Cont.)

1962. Contribución al conocimiento de los Tremellales de la Argentina. *Lilloa* 31: 213-228.
1964. On *Pisolithus* in Louisiana. *Mycologia* 56: 319.
1964. New species of Tremellales from Guatemala. Elisha Mitchell Sci. Soc. 80: 65-70.
1964. A new genus of the Tulasnellaceae. *Mycologia* 56: 696-700.
1965. Estudio sobre algunos Tremellales de México. Bol. Soc. Bot. Mexico. 29: 1-33.
1965. The 1960 Louisiana Foray. *Mycologia* 57: 478-483. (with William Bridge Cooke)
1966. A new species of *Stypella* from Brazil. Trans. Myc. Soc. Japan. VII: 1-2.
1968. Un hongo de piedra preclásica de Mixco Viejo, Guatemala. Bol. Soc. Mex. Micol. 2: 9-15.
1968. Taxonomic problems in the Heterobasidiomycetes. *Taxon*. 17: 118-127.
1969. Septate holobasidia. *Taxon* 18: 632-634.
1970. Keys to Neotropical Tremellales. *Nova Hedwigia* 19: 407-438.
1971. Some observations on ethnomycology in Mexico and Guatemala. *Revista Interamericana Review* 1: 39-49.
1971. New records of mushrooms stones from Guatemala. *Mycologia* 63: 983-993.
1972. Mushroom symbolism in Maya Codices. *Mycologia* 64: 816-821.
1972. A new species of *Arrhytidia*. *Mycologia* 64: 904-906.
1972. A newly discovered copy of a Maya Codex. *Revista Interamericana Review* 2: 405-407.
1974. *Amanita muscaria* and the thunderbolt legend in Guatemala and Mexico. *Mycologia* 66: 188-191.
1974. Heterobasidiomycetes (part) in: *Mycology Guidebook* pp, 240-244. R.B. Stevens, Ed. Univ. Washington Press.
1975. Notes on mushrooms and religion. *Revista Interamericana Review* 5: 110-118.

PUBLICATIONS (Cont.)

1975. Additional neotropical Tremellales. *Mycologia* 67: 991-1000.
1976. A new Tremella from Ecuador. *Mycotaxon* 4: 163-165.
1976. New Tremellales from Panama. *Mycologia* 68: 1103-1108.
1977. Hallucinogenic mushrooms in Guatemala. *Jour. Psychedelic Drugs* 9: 123-125.
1977. A new Heterochaete. *Mycotaxon* 5: 449-452.
1977. A new Tremella with deciduous sterigmata. *Mycotaxon* 6: 371-374.
1977. A new species of Phyllogloea. *Bol. Soc. Mex. Micol.* 11: 163-165.
1978. A new Tremella from Mexico. *Mycotaxon* 7: 218-220.
1978. Sándor Petőfi, 1823-1849. An Introductory Note. *Revista/Review Interamericana*. 8(2): 325-329. (with translation from the Hungarian of "Egy Gondolat Bánt Engemet.")
1979. A new genus and species of Tremellaceae from Mexico. *Bol. Soc. Mex. Micol.* 13: 223-227.
1979. Nuevos registros de Tremeláceos de México. *Bol. Soc. Mex. Micol.* 13: 211-214. (with Gastón Guzmán)
1980. Supplement to Neotropical Tremellales. in *FLORA NEOTROPICA* 6: 1-18.
1980. Ethnomycological inferences from mushroom stones, Maya codices, and Tzutuhil legend. *Revista/Review Interamericana* 10(1): 94-103.
1981. A new species of Dacryopinax from Brazil. *Mycotaxon* 13(2): 428-430.
1981. Syzygospora alba, a mycoparasitic Heterobasidiomycete. *Mycologia* 73: (joint authorship: F. Oberwinkler & B. Lowy)
1981. Heterobasidiomycetes. in *Synopsis and Classification of Living Organisms*. McGraw-Hill Book Company. (in press)

From: Henry L. Snyder, Dean  
College of Arts and Sciences

Date: September 16, 1983

To: Bernard Lowy, Professor Emeritus  
Department of Botany

Thank you for sending me a copy of your note to Dean Henry. I am glad you took the initiative to do that. I am sure he will support you. It is very pleasing to me to see your continued association with the department and your strong record of productivity. It reflects most creditably upon you and upon us. I have been delighted by the association. All best wishes.

Dean Ronald J. W. Henry  
College of Basic Sciences  
338 Choppin Hall  
Baton Rouge Campus

12-IX-1983

Dear Dean Henry:

Since my retirement from the university in July 1980 I have been encouraged by the Dean of the College of Arts and Sciences, Dr. Henry Snyder, to continue some of my research activities in the Botany Department, and for this purpose I have been allocated space in the Radio Isotope Building. I have also been provided with a part-time helper. The new Head of the Botany Department, Dr. Thomas Moore, continues to support me.

Because of the recent administrative change that has brought the Botany Department under your jurisdiction, I believe it is appropriate to call your attention to my continued involvement in botanically related research. Toward this end I have enclosed pertinent documentation of recent and ongoing projects, together with reprints, correspondence, and a c.v., in the hope that you may also decide to offer me the necessary support that I have thus far enjoyed. At your convenience, I shall be glad to answer any questions that you may have concerning my present and future plans.

Sincerely yours,

*B. Lowy*  
Bernard Lowy  
Professor Emeritus

16-III-1983

Dear Henry,

Thanks for your encouragement of my academic work which you are kind enough to say benefit the university.

Your secretary's amusing malapropism gave me pause, but the word intended is so rarely heard in academic circles these days, that she may be excused for confusing it with the one substituted, the ominous overtones of which are now all too commonly heard!

Yours,

Bernard

(B. Lowy)

Dear Bernard:

Thanks for your update on your most recent activities together with the copies of your papers. Your industry never ceases to amaze me. I think we can count ourselves very fortunate to be able to enjoy your continued association with us and the benefits that it certainly brings to the department and the university, because of your imminence in your field.

All best wishes for continued success in your research endeavors.

Sincerely,

Henry L. Snyder, Dean  
College of Arts and Sciences

HLS:11  
F/HLS 17

To:

Dean Henry L. Snyder  
College of Arts and Sciences  
260 Allen Hall

Since my last informal report of March 1982, many of the academic activities there listed continue, including herbarium related work (additional loans of fungi were requested by mycologists in the U.S., Spain, Peru and China), editorial duties as a member of the Editorial Board of MYCOLOGIA, critical evaluations of grant proposals in mycology submitted to NSF, identification of collections sent by mycologists in the U.S. and abroad, and additional book reviews for ECONOMIC BOTANY and MYCOLOGIA.

In 1982 I received three invitations to participate in mycologically or ethnomycologically oriented meetings. In March I was invited to participate in the III Congreso Latinoamericano de Botánica, which was scheduled to be held in Lima, Peru, in July. A previous engagement in Hungary conflicted with this meeting.

In October (26-30) I was in Xalapa, Mexico (copy of invitation and program enclosed) where I gave the "keynote" address (in Spanish) in ethnomycology at the 1<sup>er</sup> Congreso Nacional de Micología. I was later honored with a parchment presented by the Sociedad Mexicana de Micología in recognition of "20 years of outstanding contributions to Mexican mycology."

The third invitation was from Harvard University for participation in the dedication of the "Tina and Gordon Wasson Ethnomycological Collection." Copies of the invitation and program are enclosed. The ceremonies were to be held in November, 1982, but because of the ill health of the donor, R. Gordon Wasson (now generally recognized as the world's leading ethnomycologist), the meeting was held on the evening of February 12, 1983.

In July 1982 I was in Hungary, and visited my mycological colleagues of long standing at the mycological collections of the Museum of Natural History in Budapest. Many unidentified fungi are there on deposit, and I was asked to examine some of those in which I have a special competence. However, I had time to see only a small part of them, and would like to return for a more extended period of critical work. This would probably result in a publication on those fungi, which have long been neglected in Hungary. Since I speak Hungarian, communication with my colleagues (as I found last July) presents no problem.

Respectfully submitted, March 2, 1983,

*Bernard*  
Bernard Lowy  
Professor Emeritus

(recent reprints enclosed)

1-X-1981

Dear Henry,

Thank you for your very kind note.  
I deeply appreciate your encouragement  
and shall try to merit your laudatory  
appraisal of my efforts.

Yours,

Bernard

You should have received a separate set  
of reprints that I addressed to you.

Botany

Thank you for sending me your update on your 1981 activities. Your industry and accomplishments are most impressive. It is a real pleasure to note your productivity and your continued relations with the University. I hope our continued association is as gratifying for you as it is for me. All best wishes for continued success in your research endeavors.

HLS/tla

Informal Report: Summary of Academic Activities 1981

I. Herbarium-oriented

A. Deposit of + 1000 collections of fungi in LSUM; ie Brazilian specimens collected Sept.-Dec. 1980. Distribution of duplicates to New York Botanical Garden and Instituto Nacional de Pesquisas da Amazonia (about 1000 to each institution).

B. Maintenance of herbarium, inventory, with help of student assistant.

II. Publications

A. Papers published or in press

Syzygospora alba, a mycoparasitic Heterobasidiomycete. F. Oberwinkler and B. Lowy. MYCOLOGIA 73:1108-1115. 1981.

New Tremellales from West Brazilian Amazon. B. Lowy. MYCOTAXON 14. 1982. (in press).

Were Mushroom Stones Potters' Molds? REVISTA/REVIEW INTERAMERICANA XI. 1982. (in press).

B. Book Reviews

Fungi of the USSR (in Russian). M.V.Gorlenko et al. 1980. in ECONOMIC BOTANY 35(4):459. 1981.

The Botany and Chemistry of Hallucinogens. R.E.Schultes et al. 1980. in ECONOMIC BOTANY 35(4):473-474. 1981.

Narcotic Plants of The Old World. H. Schlieffer. 1979. in ECONOMIC BOTANY 36(1):70. 1982.

Eesti Seente Koondnimestik (Estonian Fungi). L. Jarva & E. Parmasto. 1980. in ECONOMIC BOTANY 36(1):83. 1982.

III. Editorial work

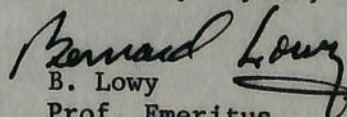

Reappointed to a third 5-year term on editorial board of MYCOLOGIA.  
Editorial English Language Advisor to SOCIEDAD MEXICANA DE MICOLOGIA.

IV. Related Academic Activities

To Mexico, D.F. to participate in annual meeting of SOCIEDAD MEXICANA DE MICOLOGIA. (Feb. 1982). (Is partial reimbursement for trip possible?)

Nomination of Chinese scholar (Dr. Lou Lung-Hou of Beijing) for a 3-month visit to U.S. to work with BL and visit elsewhere. U.S./China Distinguished Scholar Exchange Program sponsored by National Academy of Sciences. (copy of nomination forms enclosed).

Submitted to Dean Henry Snyder, March 29, 1982.

Mr. Bernard Lowy  
Department of Botany  
Louisiana State University

Dear Bernard:

Russell passed on to me the copies of your most recent publications. Your productivity is an example for us all to follow! I am delighted to see this continuing evidence of your very deep scholarly commitment and also your substantial expertise. Your scholarly efforts and the reputation that they have is certainly a credit to both your colleagues and the department and those of us throughout the university. We are grateful for your continued presence and participation here. Best Wishes for your continued success in your research program.

Sincerely yours,

Henry L. Snyder, Dean
