We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

DANIEL CLEVELAND,
SAN DIEGO,
CALIFORNIA.
Landing Feb - May 24/97

Berlin
Your letter of the 17th inst.
requesting native seeds of Frankenia
jamesii & Frankenia Palmeri for
Mr Wm & Bray now at Berlin is
just received. I shall be glad to
procure & forward you seeds of
the latter - when they can be pro-
cured - which will be probably next
month.

Sincerely Yours

Daniel Cleveland

I shall be glad to receive all the
publications of the Dept of
Agriculture - so far as the same
can be sent to me -
