The Hunt Institute is committed to making its collections accessible for research. We are pleased to offer this digitized version of an item from our Archives.

Usage guidelines

We have provided this low-resolution, digitized version for research purposes. To inquire about publishing any images from this item, please contact the Institute.

About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

Prof. ^r Thunberg
March 29. 1791.
list of desiderata in
shells & plants.
ans. ^r Aug. 17.

To

Doctor J. E. Smith, F.R.S.

// London.

Fabr.

Viro Illustri et Expertissimo, D^{no} Dⁿⁱ Smith
L. p. d. Jacol. Bot. Thunberg.

Accepi hisce diebus cum voluptate gratissimas tuas
litteras simul cum Catalogo deficientium plantarum,
valdeque sum letus, quod plures adhuc mihi ad manus
sint tam capeales plantae, quam aliae, quibus grande
et locupletissimum tuum herbarium augere possum.
Dum herbarium meum percurro, sensim sensimque
plantas Tibi, Amicissime Vir, desideratas colligam et
ante Autumnum mittam simul cum quibusdam Differ-
tationibus meis. Valde Tibi quoque ero obstrictus ob illas
mihi desideratas plantas, quas mecum communicare Tibi
placebit. Nec minus meum foret gaudium, si Tibi, vir
ill. placeret, ex duplicatij tui insertij et Conchilij eas mecum
communicare species, quae in duplo esse possunt, quo casu vellem
Tibi occasione data mittere catalogum deficientium Insectorum.
Conchylia mihi paucis defunt ex notis, quare à tergo leu-
ejus catalogum communicare valeo. Et si quoddam ex his
Classibus a Te meo desiderantur, ex copia mea libenter

com munico, quod grata Tibi fore ^{animadverto.} ~~per fpe~~
Ne unicum Exemplar Swartzii Hieronymi invenitur
venale in hœcia; omnia enim dispendium missa sunt.
Litteras inclusas tradas velim Domino Afflicto et
exulsi benigne, quod illas incluserim. Dum
Chirurgi quidam Angli, hinc abeant Londinum, mittam
ad te met fasciculum, continentem plantas nonnullas
siccas et Dissertationes. Interim valeas et mihi
semper faveas et ames. Upsalæ d. 29. Mart. 1791.
