About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

NOTTING HILL GATE, W. 2.

28 Feb 1924.

Dear Sir,

I am very much obliged
to you for your letter &
kind offer of help.

There is no title to
Mr E. J. Western's work
but it might be described
as a glossary of botanical
names in different languages
arranged on the basis of
the Index Kewensis.

Yours truly,
J. H. Hunt

Latin name of a plant
will be the various names
it may be known by, in
different countries &
localities, with the reference
to his authority.

The books of a botanical
character vary from good
books to those of a popular
character.

I do not wish to sell them
& would like to give them where
they may be of use, nor have
any doubt that they
should be kept together.

Perhaps you would be
so kind as to come &
see them! Could you
come some morning &
stop to lunch, or would
you rather stay on after
lunch to the afternoon?
Most days will suit me.

Perhaps you would kindly
ring me up on the 'phone.

Believe me

Yours sincerely

Lucy C. Western

11 March. 1924.

Dear Sir David

Your suggestion of
coming here on Friday
14th Mar. at 3.30 p.m. suits
me very well. It is very
kind of you to come
when you are so busy.

Yours sincerely

Lucy C. Weston

19 March 1924

Dear Sir David

I am sorry to say my sister came out with measles last Sunday so I am writing for her. I only hope that you will not have caught it. I enclose typed list of my father's botanical books & have kept a copy, so the books can be referred to by their numbers in the list. No doubt some of those to whom this list will go, will wish to come & see the books; in that case the most convenient time for me is from 6.30 PM onwards, any

time during the evening on any day
except Tuesdays or Fridays.

Thanking you again for your great
kindness.

I am

yours sincerely

O. Western.

27th March 1924

Dear Sir David

Thank you very much for your letter of today; my inter. is delighted to hear that so large a number of the books will be of use to Kew. Unfortunately two of them viz.

20 ^{Southey on the Flora}
119 ^{Maublanc les Champignons}
she has given away to a relative within the last few days. but she will be very glad to let Kew have the rest ~~with~~ on their list. I propose bringing the books to Kew in my little car if convenient to the Librarian on Saturday morning next the 29th inst. If you could manage to let him know in the course of tomorrow he could ring me up either here in the evening or better still at my office (Western & Sons) Tel no City 9826 during

the day. If you are unable to do this
or it is otherwise inconvenient I could
bring them some other time.
In any case I will not bring them until
I hear.

I enclose a list of a few attentions
to my original list.

It is not at present convenient to
move the herbarium as it is in a
room occupied by a nurse. I will let
you know as to this later.
My sister is rapidly recovering & will
soon be up.

Yours sincerely
J. Western.

2nd April 1924

Dear Sir David

Thank you for your letter of yesterday. Dr Hill telephoned me on Friday & I took the books down to him on Saturday morning. The librarian took me round the library & herbarium which impressed me very much. Dr Hill did not mention to me the idea of offering the remainder of the botanical books to Tokyo University. My sister quite approves of the suggestion, will you therefore send the list on to Sir Israel or will you send it back to me when I will write to him. There are a few alterations to be made in the list but I do not think it is worth while troubling you with them.

as it will matter little to Tokyo.
Dr Hill mentioned to me the subject
of my father's dictionary & I therefore
fetched for him specimen bundles.
~~for~~ which will be examined there
& he will let you or I (I am not
quite sure which) know what is his
opinion on it. He offered to house
the manuscript (before he had seen it)
as perhaps the time might come when
it might be completed & published
and it would be safer there. I could
not give him a definite answer as to
this as naturally my inter would like
to have his opinion before making any
decision

We had a message from the natural
history museum the other day & today
a young man came and was, as I
had expected, rather appalled at the
number of boxes of butterflies etc.
He said that his subject was butterflies
& that a beetle man would come
along tomorrow. He took away about
half a dozen butterflies which he
said the museum would like to have.
So this matter is also going on well.
I am writing to Dr Bateman to arrange
about sending him the books he wants

I am
yours sincerely
O. Western.

Sir D Pain.
