About the Institute

The Hunt Institute for Botanical Documentation, a research division of Carnegie Mellon University, specializes in the history of botany and all aspects of plant science and serves the international scientific community through research and documentation. To this end, the Institute acquires and maintains authoritative collections of books, plant images, manuscripts, portraits and data files, and provides publications and other modes of information service. The Institute meets the reference needs of botanists, biologists, historians, conservationists, librarians, bibliographers and the public at large, especially those concerned with any aspect of the North American flora.

Hunt Institute was dedicated in 1961 as the Rachel McMasters Miller Hunt Botanical Library, an international center for bibliographical research and service in the interests of botany and horticulture, as well as a center for the study of all aspects of the history of the plant sciences. By 1971 the Library's activities had so diversified that the name was changed to Hunt Institute for Botanical Documentation. Growth in collections and research projects led to the establishment of four programmatic departments: Archives, Art, Bibliography and the Library.

Brookings, South Dakota,
Mch. 29, 1910.

Mr Carlton R. Ball,
Washington, D. C.
U. S. Dept. Agriculture.

My. Dear Sir:---

I am sorry that, so far as I can find, Salix lucida Muhl. has never been collected by any of our South Dakota botanists in the Black Hills or any other part of our state. Further, we do not have any specimen in our herbarium. We plan a revision sometime in the near future of Saunder's list of the state flora, so that we will be extremely glad to make a note of the information which you send concerning your collection in the Black Hills.

I thank you heartily for your separates, which I was very glad to receive. I will take pleasure in returning the compliment in the near future with some of my own papers.

Yours very truly,

E. W. Oliver

April 2, 1910.

Dr. E.W. Olive,
Brookings, S.D.

Dear Dr. Olive;)

Your very kind letter of the 29th. ult. is just at hand. I am under much obligation to you for this information and prompt reply. I am glad to know that you purpose a revision of Dr. Saunders' state list. If I can be of any assistance in the matter of the willows do not hesitate to call on me.

Very sincerely yours,

Dear Dr. Ball:---

You are of course at perfect liberty
to quote from my letter in your paper.

When we get around to the revision of Saunder's State List
I will be very glad to call upon you for some pointers about willows.

Yours very truly,

E. W. Olive
